ICMS #: 2022-1091

On December 1, 2022, the OPO received an email complaint.

**The complainant alleges:** I am the Principal at [REDACTED] and I would like to file a complaint against an officer that came to our campus [REDACTED] around [REDACTED]. [REDACTED], I believe is the name of the officer, he was working on case [REDACTED].

The officer came to our building to conduct an investigation that a parent of one of our students made accusing another student of assault. When the officer arrived he asked for footage and information regarding the physical altercation. Our school day ends at [REDACTED] and the staff on-site that he was questioning did not have access to the information he needed. When our staff stated that he would need to come back [REDACTED], when the Principal was on-site the officer accused them of obstructing his investigation and threatened to file a charge against them. The three staff members he spoke with are black and latina and felt extremely uncomfortable with the officer's accusations. They stated that the officer was reprimanding them and then requested to enter the school tour it.

My staff called me to try and gain access to our footage and I was able to send it. The officer then watched the footage and said that the altercation seemed mutual between the students and no assault had occurred. After stating that the altercation was mutual he said he had to write that the accused scholar was the aggressor. The accused scholar is a black female. The video clearly shows otherwise, so it was unclear why the officer was putting this official information on a black, minor's information.

After hearing of this interaction, I am formally filing a complaint and requesting for this officer to be investigated. I believe this officer threatened and intimidated my Black and Latina staff. I believe he operated with racial motivations not only in the way he spoke to my staff but in that he was going to/did file in the official investigation that our black, female, minor was a suspect and assaulted another female when that was entirely false.
