ICMS #: 2022-0797

On September 14, 2022, the OPO received a phone complaint.

**The complainant alleges:** The situation is ongoing since [REDACTED]. APD will not assist him in filing charges against his ex. His mother and ex have teamed up against him and have contacted the school to not let him see his son. He drove over a couple of hundred miles to the school and the principal sneaked his son out the back door and gave him to his ex's sister who is a drug addict. He went back to the school the next day and the school did the same thing. His ex lied to the police and told them he had threatened her. His ex forced papers under his arm after he refused to take them. The police were called. The police are not doing anything to help. The principal of the school made a false trespassing report. On the [REDACTED] after [REDACTED] he was video conferencing with his son and his ex was recording him and his son's private time to prove that he was unstable. Texas is a one-party state and what she did was a felony. Detective [REDACTED] told him he could not do anything because it was a telephone. The complainant explained to Detective [REDACTED] that she was using the phone as a recorder. The complainant also explained other ways the cell phone could be used. The complainant has had other charges filed against him and they all were dropped except one. He has a problem with law enforcement not enforcing the law and locking him up illegally and charges being dropped because they don't have anything against him because he has not committed a crime. He has not seen his son in a [REDACTED]. He has been locked up and has paid \$10,000 to \$20,000 in lawyer's fees. He has also been illegally evicted which makes it impossible to get housing and he basically is living in a hotel because of everything that has happened in his situation.
