NOTICE OF COMPLAINT

February 24, 2023

ICMS #: 2023-0146

On February 21, 2023, the OPO received an online complaint.

The complainant alleges: Public safety workers are working together with members of the community to target me with slightly annoying or peculiar behavior, which includes loud noises, creating delays or blockages in pathways that I may transverse, wasting my time with pointless interactions, and others annoyances. None of these are threatening. Yet, I am being targeted and kept under surveillance by public safety workers (fire department personnel, law enforcement officials) who are working in "clever" combinations with the community to disingenuously annoy me. Sometimes this occurs as these public safety officials conduct their duties. One of these incidents occurred on [REDACTED] at approximately [REDACTED] as two Austin Police vehicles, with officers, "lingered" at [REDACTED] apartment properties [REDACTED] while a person in a vehicle slowly drove OUT of the ENTRANCE while I was walking INTO the property, followed by one of the police vehicles following OUT the ENTRANCE while the officer stared at me (not a close-call collision, but an effort to create obstructing traffic; in other words an annoyance only), and the other Austin Police vehicle was staged with front light and HIGH POWERED LIGHT shining in my direction (minor annoyance). There have been MANY Austin Fire Department (AFD) incidents occurring around me. REPEATEDLY the local fire department [REDACTED] has come onto the [REDACTED] apartments property near where I am located or heading. Please look at the record, if there is one. The AFD is conducting phony operations with the community to annoy me, on and even off property. Related to this, it appears that there is some sort of communications link between the community and the AFD, whereby the two work in concert to try to annoy me in different ways - noise, staging vehicles in my path. Here are date/time of just two of these incidents: [REDACTED] and another on [REDACTED] at approximately [REDACTED]. But there have been more. Another (apparent) law enforcement official who has been involved in these conspiracies to annoy is someone called [REDACTED] "(?). Back in [REDACTED] I received a call from my cell phone from [REDACTED] from some one called [REDACTED]. My comments here are not the ramblings of a paranoid person. This is a real conspiracy by public safety officials to annoy me and undertake phone public safety operations. It started in [REDACTED] county by public safety officials there (public sector unions). They are
