NOTICE OF COMPLAINT

January 6, 2023

ICMS #: 2023-0002

On January 3, 2023, the OPO received an online complaint.

The complainant alleges: Driver of Police car [REDACTED] was driving unpredictably and dangerously on [REDACTED]. - I was driving the speed limit on [REDACTED] with the police car whipped from behind me into the oncoming traffic lane and then cut in front of me to get behind the car in front of me. They did not signal or use their lights to indicate the move and there was traffic turning into the lane from [REDACTED] - On [REDACTED] [REDACTED] was in the outside lane and cut in front of a car on the inside line, then cut back to the outside lane so they could make the turn onto [REDACTED]. Again, they did not use their signal or lights and maneuvered very close to both cars. - On [REDACTED], there was a car waiting to turn at the STOP sign on [REDACTED] [REDACTED] again cut into the oncoming lane and turned left without stopping, cutting in front of the car that was already stopped at the sign. Overall, these were dangerous maneuvers without any indication that the officer was responding to an emergency or even any sort of telegraphing of what they were intending to do. This is dangerous and in a high-pedestrian area.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
