

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

April 28, 2022

ICMS #: 2022-0316

On April 25, 2022, the OPO received a phone complaint.

The complainant alleges: APD officers are unwilling to take her statements. APD told her they already had her statement that she called in. When she tried to tell the officer about everything that had happened, the officer got really defensive with her and did not take her statement. She told the officer she had been raped at the place she was employed, and the officer responded with “how does that make you feel” and still did not take her statement. The next day when she called again another officer responded. That officer was also defensive and started to get in her face when she tried to talk about being raped. She thinks the police department has tried to investigate her before because of other people who called in false reports about her. Her son was killed last year, and she thinks it is because she is trying to report the incidents to APD. Her family and children were being threatened. The people threatening her are all people on drugs. She recorded threatening messages and her cell phone has been stolen many times because they found out she was going to take her phone to APD as evidence. Police are not taking her statement because they are involved with people who are doing bad things.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
