Austin Police Officers Involved: Paige, (AP7326) Unknown: <input type="checkbox"/>	
The complainant alleges: <p>He was arrested on July 9, 2021, for making a terroristic threat. The judge dropped the charges on April 4th of this year because they were not able to find the person who made the false charges against him. He called the evidence room to pick up his pistols that were confiscated and they won't give them back. He was told to contact Detective Paige. He has contacted him for 3 weeks straight, but the detective will not return his call. Detective Paige is out of line with being a public servant. He wants to pick up his things because they belong to him. It is unfortunate he has to make a complaint because he does have anything against APD. The complainant requested his complaint be sent to an APD supervisor who will call him.</p>

Austin Police Officers Involved: Moore (AP3491) Unknown: <input type="checkbox"/>	
The complainant alleges: <p>A police officer, APD 3491, pulled her over so she complied and immediately stopped. He told her he pulled her over because her plates were tinted and that it was illegal in the state of Texas. He took her driver's license and then asked for her proof of insurance. She could not find her proof of insurance, so she told him she needed to look at her e-mails because she pays for everything online. The officer told her it would take twenty minutes to do that. She told him it would not take that long. The officer would not wait. He gave her a ticket and was rude about it. He told her that she could go to court and provide proof if she finds it. She noticed that there was a database where the information could have been found but the officer did not do that. She provided her proof of insurance to the Municipal Court. The complainant requested her complaint be sent to an APD supervisor who will call her.</p>

Austin Police Officers Involved: Jauregi (AP9632) Unknown: <input type="checkbox"/>	
The complainant alleges: <p>"I met with my client wherein he detailed a motor vehicle accident involving at least four vehicles with moderate damage requiring tow. Damages were in excess of \$1,000 and he required medical attention. My client provided his insurance information but was not given the information for the other parties. He was told a report (Report number: 2300340328) would follow. A report has not been generated. I called the APD number several times, as well as requested to be transferred to the highway enforcement command line. I left voice messages for Officer David Jauregui (APD 9632) and no one called me back. I have no idea if citations were disbursed because I have no information on the other parties. I requested the CAD Sheet and all of the identifying information is redacted. Officer David Jauregi Male APD 9632 on patrol in vehicle." Austin Police Officers Involved: Rico (AP4732) Unknown: <input type="checkbox"/>	
The complainant alleges: <p>I was walking into the 460th criminal court, officer was one of the officers manning the security booth at the entrance. When I was entering, he was immediately hostile towards me, slammed my \$2,000 laptop into the bin potentially damaging the internals, and then made a point to not give me my things back immediately, but place them on the far opposite side of where I was standing even though I gestured to him that that belonging belonged to me. As a minority I often see this behavior from people who have racial prejudice against me. I am a legal intern at the DA's office this summer and I go through this security check point daily, and I have never had this experience with any other officer. I am filing this complaint just so that other people's valuables are not damaged or stolen while entering and appearing for court, and to file on record of potential hostile behaviors this officer may exhibit towards people who he deems he does not like on first impression which may be a danger to the community.</p> <p>Do you remember any details about the officer(s) you'd like to share?: Yes Name: Rico Physical description: Black hair, Hispanic, beard Race: Latino or Hispanic American Gender: Male Badge number: 4732 What was the officer wearing?: Uniform What kind of transportation was the officer using?: On foot</p>

Nature or complaint: Improper Police Procedure	
Austin Police Officers Involved: Officer Jewell Corey/Badge AP6970 Unknown: <input type="checkbox"/>	
The complainant alleges: <p>He was involved in a motor vehicle accident. His car was rear-ended by the vehicle behind him. The young lady who was driving cut through the intersection ignoring the stop sign and tried to pass the complainant on the right side. She hit his car on the passenger side, swerved around, hit his car again but on the left side, and then tried to leave the scene. He was able to get her to stop and he then called the police. Officer Jewell Corey/Badge AP6970 responded. Officer Corey agreed the young lady appeared to be under the influence and said he was going to do a sobriety test. The complainant tried to explain what happened, but the officer just blew him off and seemed more concerned about the young lady driver. The officer went over to the young lady driver and came back with a sheet of paper with her name and insurance company on it and told the complainant he could go. The complainant questioned if there was a case number and Officer Corey told him he did not think there was going to be one. As the complainant was leaving, he thought it was weird that the officer went back over to the young lady, and they hugged. When the complainant tried to contact the young lady's insurance company, he found out the officer had given him the wrong information. Luckily, he took photos of the incident, and his insurance company was able to find her insurance company. When the complainant contacted APD about the accident report, he was told there was no report, however last week a report surfaced (report #23-0530989) but the report does not say anything about a sobriety test and the information was everything the young lady driver said which was not true at all. The complainant was hit from behind and the officer is calling the accident some kind of road rage. The complainant alleges it seems the officer knew the young lady that was driving and is siding with her. The complainant feels he has cause for concern. The complainant requested to come in and file a formal complaint and affidavit.</p>

The complainant alleges: <p>Officer Paula Aguilar has written things in a police report that do not concern APD that make him look bad. The officer refused to give the report number. His manager took his medical records from him and called APD. The complainant did put on a scene and was yelling outside because he wanted his personal information back. The police officer talked to the manager but refused to talk to him. He asked the officer to get his medical paperwork from his manager, but the officer did not, now everyone knows his medical issues and they are calling him crazy. He wants the body camera footage so he can know what the officer and his manager discussed. If any of his medical information was discussed, he will sue APD. He has called APD numerous times before for disturbances at [REDACTED] with no response. He has recorded the incidents that have been ongoing since last year. I was involved in a hit and run that pushed my vehicle into on coming traffic. There was damage on my vehicle that shows this to be true. The report does not show that a third party was involved. In the report it shows that I unit 1 collided with unit 2 which is not true unit 2 was behind me in his car heading northbound as well not south bound. Unit 2 is trying to sue me so this why I need the police report change. I was also wondering if we could have images of the crash that shows both vehicles involved?</p>

Nature or complaint: Delayed Police Response	
Austin Police Officers Involved: Unknown: <input checked="" type="checkbox"/>	
The complainant alleges: <p>He wants an explanation why it took APD a half hour to respond to an urgent call. His wife could have died because there was a shooting. APD did not have a sense of urgency. He understands some of the PD officers do not live in Austin or Travis County, so they don't care because it is not them or their families, but APD does get paid by Austin. It is ridiculous. Imagine your house gets shot up twenty times and the police did not even respond to a call. The complainant does not trust APD investing themselves because they are notorious for covering their scandals and corruption. The complainant hopes APD comes up with a good story to cover their butts because he is going to blast the incident in the media. The complainant requested his complaint be sent APD supervisor for a callback.</p>

The complainant alleges: <p>Her boyfriend went outside to get her kids ice cream. He does have a warrant and APD was right to arrest him. But what followed was a false report with falsified statements. The report stated her boyfriend dropped narcotics on the ground and she picked them up from the ground and left. APD stated really crazy things in the report with her name included. Based on what was said in the report, which was all false, APD put three new charges on her boyfriend. She has a video recording of the entire incident. There were children and adults outside videoing the entire incident because APD tackled her boyfriend to the ground. She has proof of what occurred and there are also body cameras that show clearly there were no narcotics involved. The reason she is filing the complaint is that her boyfriend only gave her a \$5 bill for her kid's ice cream. The case number is D1DC23203481. The complainant alleges: <p>The area was fairly busy. I had just finished my business at a store on the first floor. I asked about a restroom and was directed to a public restroom on the second floor. When I stepped into the elevator, a man followed me and made awkward conversation. I have never seen this man in my life. He asked what was on the second floor and I informed him that I was unaware of anything but the restroom. He stayed in the elevator and after looking to see where he went, I headed down a different hallway. I heard him go into the restroom to search for me. He then came down the hallway, spoke to me briefly as I tried frantically to get let in an office. Once he was gone, I stepped into the stairwell and ran up to the third floor where I was finally allowed access to an office to hide from the man following me. The cops were called, the man continued to look for me and even threatened people who he suspected knew where I was. I was escorted to my car by an employee from two different shops while the man continued to look for me. By the time the police showed up, the man was gone. Again, I've never met the man and had I gone into that restroom, I easily could've been a victim.</p> <p>The police officer called me and informed me that because the man was gone, they couldn't do anything. As frustrating as it is, I understand. BUT, I had just gone through something incredibly traumatic and I don't think it's too much to ask for some empathy from the police officer. He was brisk and to the point and seemed irritated that he was asked to call me for an update. This behavior is disgusting. Serving your community includes empathy.</p>

The complainant alleges: <p>My wife and I came to Walmart earlier today to return a bike. Upon entering the door the greeter employee started to say loudly the bike has to be left outside. Obviously taking off guard my wife said calmly it's a return. The greeter said again the bike has to stay outside. My wife said louder it's a return. The police officer was standing near the greeter the entire interaction. The officer decided to walk towards us. At this time we see are still standing near the cart area of the Walmart entrance. The officer walks up to me and says the bike can't come in the store and my wife and I both say once again it's a return. He then proceeds to ask me where is the receipt. I asked him what does me showing a receipt have to do with me bringing the bike in for a return. He say's aggressively in a manner meant to be intimidating "because I want to see it". I replied it's a return and my wife and I walked to customer service. Why would he ask for a receipt after we told him that it was a return. There was no reason for that. We were entering the store not exiting with the bike also he is not a Walmart employee. It seemed like he wanted to make the situation escalate into something much more. He seemed hot headed and bad at communicating and de-escalation.</p>

The police officers that came were pretty dismissive and complained in front of me, but under their breath about having to write up the event. They didn't seem to understand that it was a need to protect myself. They claimed that it wasn't a verbal disturbance even though my roommate was yelling and cursing. One of them even said that he didn't understand or was confused about why I would call a family member due to the situation. I appreciate police officers and what they do. I do not understand why they were so dismissive. I would never want to waste their time.</p>

They had robots and kicked her door open even though the door was unlocked, and the people inside came outside. APD tore up her daughter's room, her room, the living room, and the kitchen. Basically, they tore up everything in her apartment for no reason. She saw the warrant and it did not include her name or the names of the people in her apartment. The warrant only stated that the apartment manager provided information that a suspect with no description was believed to be in her apartment. After they tore up her apartment, they released the people that they handcuffed. They tore up her apartment for no reason because of false accusations reported by her apartment manager. The complainant alleges: Hi, This is the only channel of communication I found, I have a request not a complaint or Thank you. Request: Kindly remove the Report Sales label displayed on the counter I have visited the Police Head Quarters yesterday 06/07/2023 and came across couple of issues that were very disturbing. My visit was supposed to energize me instead I lost the enthusiasm, there is no need for a Police office to be a marketing agent, sales and security doesn't go hand in hand. A sales person focuses on selling the product, there are many instances where the sales person doesn't even use the product but sells them, Security is not a product, Police officer is there to safe guard, they provide their valuable services to protect us ,there is no way he can sell the security, not only him no one sells security. You can provide the service, and any service is priceless. I don't want to see my kids growing up in an atmosphere where service is a product, if I have taken my daughter for a visit to police department, I don't have an answer, kindly remove that instead try using Report incidents / cases/ Services /. I hope my request will be addressed. Sincerely, [REDACTED] [REDACTED]

The complainant alleges: <p>I'm writing to tell y'all about the issues that arose one 6/7 with the wreck and your officers accusations. They are trying to say I was abusing inhalants, maybe drunk, and reckless driving. The things that they failed to mention however was that they gave me a few bs eye exams where they didn't get close enough to see me, and then when they did they kept moving they pen/light out of my sight line with my swollen eyes and joking that I couldn't see the pen so I must be inebriated, and not the fact that my left eye was swollen darn near shut and my right eye/eyebrow is partially paralyzed. At the scene of the wreck I awoke in a panic which is very common after someone becomes ██████████ which I unfortunately have medical history of. In my confusion/ daze o grabbed an empty box of strawberries and cream whip cream flavoring, asked my friend who's car it was and she responded that it was the box of the whip cream flavoring spray but it was an empty box so to just forget about it and leave it. In my dazed state I put the empty box on a drain/culvert but upon the angry black female officers asking me I told the exactly what it was and that I really had no idea or much memory of putting it there and thought it was back in the car. Then at the hospital 4 or 5 officers kicked my parents out of the room I was in and started to Harras me and say I was going to jail and should feel Shitty because I could have hit another person. And then seemed to get an even worse attitude towards me when I gave them my ██████████ card with my DL, they never questioned my friend whose car it was, she was the one who had drinks at lunch and tried to tell them that, and that's the reason I was driving her car. She also tried to tell the cops box of flavoring was hers, I was just in a panicked/flustered state soon waking up and that they weren't helping it. They ingnored her though and continued to accuse me of drinking/ asking me what my drug of choice was and getting more upset when I looked at them "stupid" because I didn't understand their questions and when I told them about my prescriptions and that's all I take so there's no interference between my body, they told me to my face that I was lying to them even after my mom told them the same stuff. They walked to what they thought was out of earshot and said that"oh he's got that dumb bitch fooled real good haha" -about my mom. And that ██████████ (friend whose car) saw me go ██████████ and tried to wake me out of it to no avail. It was not until the fifth or 6th officer showed up that I actually felt like I wasn't being attacked and told what they think I was doing through their eyes(which at they same time) don't see massive head and facial trauma/ a prior ██████████ as contributing factors until the blonde female officer showed up, the rest treated me worse than dog shit and showed me again that most of them have little man/woman syndrome</p>

The complainant alleges: <p>Hi, I live at [REDACTED], which is the apartments behind the AMC movie theater at I-35 and Parmer. APD has set up 3 machines in the parking lots there that blast announcements about trespassing that I can hear from inside my apartment, 1000 ft away. I pay a lot of rent to live here and I would really appreciate if APD could please remove or move the machines, or at the very least turn down the volume. I can hear the announcements 24/7, all hours of the day and night. The loudspeaker goes off more than 20 times a day. Right now I am trying to relax in the bath and I can still hear it. It's extremely disturbing and unpleasant and unfair to the hundreds of residents that live here and have to listen to it all day long. I've filed a complaint through 311 only to have it closed and no one contact me and no effort to try and respect my personal living space. It's pretty crazy that APD insists on violating the noise ordinance and ignoring my requests to please comply with the law. I shouldn't have to hear an announcement about trespassing when I'm in my own apartment and not doing anything wrong. I am being more effected than anyone walking by. Please lower the decibels to comply with the law.</p> <p>(3) (a) In addition to the preceding time restrictions, no amplification device shall be used or operated within a park to produce a sound in excess of 85 dB between 10:00 a.m. and 10:00 p.m.; and 80 dB between 10:00 p.m. and 2:00 a.m., as measured 100 feet in front of the device</p>

The complainant alleges: <p>I tried to report over the phone and in other capacity that I had been targeted by hate crime and defrauded repeatedly out of my rights and child. Someone had a TRUE AND REAL hatred for my extended family within politics. At times those family members were representing me in life or business without my knowledge and for their beliefs, statements or actions I was terrorized politically. People who wanted access to use MY PRIVATE assets, body, life, soul, work for themselves would impersonate me with the desire to have me destroyed. I was stalked at workplaces, sometimes attacked in workplaces, attacked by strangers and there was a true desire to have my life destroyed. People would impersonate themselves to get close to my child, befriend my child and these same people had previously stalked me in other places of work or earlier in life always with an agenda of stealing or impersonating me to steal private opportunity and allocate them illegally to government or otherwise for fringe benefits or personal benefits perhaps. Contracts were repeatedly made to defraud me out of my humanity eventually with the desire to kidnap even having me sexually assaulted and humiliated in childbirth while allowing others to WITHOUT CONSENT witness this humiliation and repeatedly try to have me humiliated in a romantic capacity or dehumanize or ruin my intimate life. When president Obama took office at that time my intimate life was destroyed and I was told at gynecologists when I expressed harm or pain I was denied care and told to simply begin offering my husband anal sex which I do not do rather than given care, I was humiliated again and again in gynecology and eventually punished for expressing any desire to have human rights. The women trying to overtly push back on sexual freedoms for women or gays were getting my life destroyed and if it didn't effect them or they benefitted financially or politically they didn't care the amount of harm my child and I were suffering from these things. I tried to be a good sport but was blindsided by the scale of the stalking and assault and police, government and intelligence level theft of my private rights and humanity eventually allowing the spouses of political figures to steal my entire life as a pay back over race things they felt "owed". I did NOTHING to deserve this and eventually my child has been kindapped by political assault within the court with judges who could not hear my rights but instead I was poisoned, set ups were either staged to frame anyone who would help or to make me look like trash by drugging me and sexually assaulting me, denying me money, rights, my child, healing, an intimate life and manipulating my brain to make my family look bad, me look bad, stalking my child. Luckily nothing was stolen because I don't keep much in my car. Well I call 911 for obvious reasons because that is who i'm supposed to trust and rely on in these situations; Who is supposed to investigate and help a law abiding citizen with a crime. Not only was I placed on hold, I was then told that police will not do anything about the crime and I couldn't even have an officer come and look at the crime scene. I heard the offenders last night in the parking garage across from my apartment, I found the fire hydrant they used to smash not only mine but multiple cars around the apartment building. The parking garage has cameras but since an officer will not even bat an eye to this crime committed against me I have no way of seeing the footage. This is completely unacceptable and upsetting. I will be looking into legality of this. I understand the police is understaffed currently and I empathize with the police, but this is completely unacceptable.</p>

The police came over to him and told him he needed to take a DUI test because he was in the vehicle with the engine on. He was told if he did not take the test he would go to jail. Previously the complainant was told by Sergeant McCormick with IA that if he was not in the driver's seat APD did not have the right to mess with him. APD made him take a sobriety test and he passed it. The complainant was recording the incident when one of the officers told him he would set his phone up on the vehicle so he could continue recording but the officer turned the phone off. When the light changed, a truck on the lane next to me, took off and swerved into my lane, hitting my driver mirror. Although I honked, he proceed into my lane and hit my fender. Since I was in the turning lane, I turned into Red River hoping the truck that hit me would also turn or try and make a turn to come back but it took off. I could see a patrol car at the intersection blocking the left turn entrance to Red River. I pulled into a parking lot. I walked toward the police officer, picking up my piece of broken mirror at the intersection and asked the officer for his name and information for possible witness. He gave me the name of the form to file the report. I asked him for his information (he was sitting in his cruiser and I was at his driver's side). I could not see his full name and he did not provide it, saying that he didn't witness the accident . I proceeded to tell him that he could at least witness that it was a hit and run as he clearly heard the honk and screeching noise of impact, saw me pull over and could clearly see there was no other driver there. He declined to give me his information 2-3 times. This was insult on top of injury. It feels as there is no law and order by irresponsible citizens and no one to enforce any law and order with the officer's attitude. What is going to stop non law abiding citizens from committing any crime and injury when they know they can get away with it even in front of police officers?
