

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

August 12, 2022

ICMS #: 2022-0668

On August 9, 2022, the OPO received a phone complaint.

The complainant alleges: Officer [REDACTED] discriminated against her because she has a record. She was arrested and released 3 hours later by the magistrate who said there was inconclusive evidence. There was not enough evidence to say she started the incident. If there wasn't enough proof then why did Officer [REDACTED] put her in handcuffs and take her to jail? She was the one who called the police. She has video of the officer saying to her brother, "It's usually the person who calls is the person who goes to jail." The video also shows her brother stating that he saw her and her sister fighting, went up to her, put his hands on her and drug her through the parking lot. This proves that he started the fight. She thinks Officer [REDACTED] believed the other people's word over hers because they didn't have criminal records. The DA is refusing to prosecute her brother because the police report states that the complainant started the fight. The police report needs to be corrected to reflect the truth that her brother started it. She received multiple injuries from her brother and has medical proof. The complainant further alleges: "They attacked me and lied and your APD officer [REDACTED] discriminated against me because I had a record and took only their witnesses in consideration because 2 witness in police video state they came at me and [REDACTED] admits he ran to me and attacked me and put his hands on me first I hit back in self defense."

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
