<b>Complaint:</b>  The complainant alleges: The complainant, who is a city employee, was verbally and physically threatened, and accused of being a pedophile by Det. Laura Correa who was upset that he did not get consent to date her ex. He just walked away crying and shaking and left. On 11/14 another police officer came by and said it was a misunderstanding and that he had caught the police officer off guard even though he did not approach the police officer or threaten the police officer. He tried to give a statement and witness information and they said they did not need that and wanted to get Correa's side of the story. They said they would file a report and get in contact with him, and he has heard nothing. He's spoken to his city council member about this, and they told him he needed to report this.

<b>Nature of complaint:</b> Discourtesy or Improper Conduct	
<b>Austin Police Officers Involved:</b> Guetzke AP4690, Mcllvaine AP6485	<b>Unknown:</b> <input type="checkbox"/>
<b>Complaint:</b>  Dear Sir/Madam, I am writing to formally file a complaint against the officers who responded to an incident at the Social Security Administration office on [date]. I believe my rights were violated, and the conduct of the officers was unprofessional and unacceptable. On the aforementioned date, I visited the Social Security Administration office February 1st, 2024 to update my US National status. However, I was denied service despite meeting the necessary requirements. Frustrated by this experience, I first contacted the Social Security Administration helpline. However, my call was redirected to the non-emergency helpline (311) instead of receiving appropriate assistance. The violation of Title 18, Section 242 of the United States Code, specifically relating to discrimination under color of law. The incident involves staff members at the Social Security Administration, security guard, and officers Mcllvaine #6485, Guetzke #4690 and Caudle #Badge Unknown (DHS) who were present at the Bldg B 5508 on February 1st, 2024. Feeling distressed and concerned for my personal safety, I subsequently called 911 to report the incident and request police assistance. To my disappointment, the officers who arrived at the scene not only twisted the facts of the incident but also failed to provide me with the support I needed. This incident has further eroded my trust in the Austin Police Department. My primary concerns are as follows: 1. Denial of Service: The Social Security Administration denied me service despite having met the necessary requirements. I believe this violates my rights as a citizen and raises questions about the agency's adherence to its own policies. 2. Improper Handling by Dispatch: When I called 911 for immediate assistance, my call was initially routed to the non-emergency helpline (311). This delay in obtaining timely assistance contributed to the escalation of the situation and undermined my sense of safety. 3. Misrepresentation of Facts: The responding officers twisted the facts of the incident and failed to accurately record my version of events. This raises concerns about their objectivity and professionalism in handling the situation. 4. Lack of Assistance and Trust: As a citizen, I rely on the police department to ensure my safety and protect my rights. However, this incident has left me questioning the Austin Police Department's commitment to providing adequate assistance, leaving me with a significant lack of trust. I kindly request a thorough investigation into this matter. I urge Internal Affairs to review the incident, interview all involved parties, and gather all relevant evidence, including any available audio or video recordings. Moreover, I request regular updates on the progress of the investigation. I trust that the Austin Police Department takes these concerns seriously and will address them promptly and transparently. I hope that appropriate action will be taken against any officers found to have acted unprofessionally or improperly.

<b>Complaint:</b>  The complainant alleges:  There was a man standing on the street between 5202 and 5204 Grover Ave dumping items, threatening passersby, brandishing a knife and acting erratically. The complainant called 911 3 times and was told they would send someone out.  After one hour, the complainant saw an APD vehicle drive by. He tried to wave them down so he could communicate with them about what had been going on, but the officer drove by without stopping.  The hour long response time in that situation was not appropriate.

<b>Complaint:</b>  The complainant alleges:  On Feb 2, 2024 my young daughter's car died on a side street near 1900 Leona and MLK. She noticed 5 Austin Police Officers in a coffee shop across the street and went in to ask them for some help. Maybe with jumper cables or help the car into a parking spot as it was close to a spot, and not blocking the street. [REDACTED] trusted the officers when they suggested they tow it so that the car is safe as it was raining. She had no clue what was about to happen!!  Instead of helping, the officers had her car impounded with A-Tex towing!! Why?? There was no reason to impound the car! 2010 Black Acura RDX. My daughter doesn't even know what that means! This is why young people don't trust police!! They did her dirty by towing it to a well known horrendously nightmarish place, and didn't tell her it was being impounded!! A-Tex takes advantage of people while keeping your car hostage! What is wrong with people? Who does this to innocent, law abiding, tax paying people? This girl asked for help from the 5 officers! Instead they created this emotionally unjust disturbing situation!  According to the many many negative reviews, A-Tex Towing is not a reputable company! Their supervisor, [REDACTED] was verbally abusive and told me herself, "that she doesn't care about our personal story." [REDACTED] also proceeded to give me several different amounts to pay throughout the ONE day that [REDACTED]'s car was stranded in their lot. Obviously this is the only way they earn their money... ripping unsuspecting people off! Why would the police do this to this young girl on her way to work at 8am?  I am retired, not in good health, on a fixed income living in LA, CA. I had to use my food money to pay the outrageous fees of \$300!! The police had no actual reason to impound her car and incur these out of line fees to a single parent and her young daughter!! Where is the justice and protection of the Austin Police?  Four black officers and one white. Badge# AP9919 Officer Bland

<b>Complaint:</b>  The complainant alleges:  While I was on my way to work, my car died on MLK and Leona St. I went across the street to a coffee shop to see if the guy working there had any jumper cables and there were two cops sitting inside who asked me if I needed help. I knew they were affiliated with the Austin PD because they had jackets on that said Austin City PD. I told them I needed help moving my car to a spot that I could legally leave it in so I could go to work. The guy in the coffee shop and one of the cops came out with me to try and push my car into a spot in the residential parking area on Leona St. The road was wet and there was a slight incline so they could not push my car. The officer told me he was going to call for help and they would push my car with a cop car. This is when the 4 other cops came and they helped me move my car into the parking spot, they also asked they neighbors if I could leave my car there because it was residential parking. Then we realized my Windows would not roll up, my car wouldn't lock and the weather forecast said it was going to continue raining for the day. They then told me I could tow my car and they would help me order a tow. So I said yes and waited as they called the tow truck. When the tow company came they asked me where I wanted to take my car and I asked which would be the cheapest option and they said if they held onto my car while I found a car mechanic, would be the cheapest option. They took my car, I then got picked up by my roommate and went home to search for a car mechanic. I then called the towing company and asked them to tow my car to the car mechanic I found. This is when I learned that my car had been impounded. The tow company ATex towing said they were told by the police to impound my car. Not once was that mentioned to me, nor did I even know what that meant. My car was in their possession at this point for 2 hours and they told me it was going to cost \$300 to get it out and then \$150 to tow it 10 minutes down the road. The lady on the phone for the towing company was awful to communicate with, and after looking at reviews I saw that they were rated 1 out of 5 stars. Long story short is that the Austin PD ordered this terrible towing company for me and impounded my car without my knowledge as they were "trying to help me". This cost me \$300 just to get my car out of their possession. I make \$18 an hour, I cannot afford something like this and that price doesn't go towards having my car looked at or fixed by a mechanic. This was a really unfair situation that I did not know I was being put in and I feel like the Austin PD did the opposite of helping me.

<b>Complaint:</b> <p>The complainant alleges: Her husband was coming home from work when Officer Vargas along with five other cops followed him home. Her husband parked in front of her house and the officer told him to step out of the car and lay himself on the ground. Her husband was arguing with them telling him he did not have a gun only his wallet and cell phone. Her husband asked what was going on and the officers kept yelling for him to lie on the ground. The officers told him the car was reported stolen. The car is registered in her name and her husband's name. She showed the officers her proof of insurance. The officer apologized and said it was a mistake and the number was entered into the computer wrong. She questioned why the officer did not verify the number. The incident was unnecessary. The officer's name was G. Vargas and there were five other cops. It was not necessary to follow someone home after work and harass a person when the car was not even reported stolen, just because a dumb idiot put the wrong number or digit on his laptop. All of this could have been avoided. She thinks the officer numbers were 5378 and 2346 1096.</p>

<b>Austin Police Officers Involved:</b> Moxley AP7322 <b>Unknown:</b> <input type="checkbox"/>	
<b>The complainant alleges:</b> <p>As I've reflected on the harrowing incident I survived, my thoughts have crystallized around its profound impact on my physical and mental well-being. This was no mere physical assault; it was a deliberate, sexually aggressive act by an individual who had been stalking me. He pursued me all the way to my home, a journey marked by terror and fear for my life, accompanied only by my service dog and groceries.</p> <p>This attack has inflicted deep physical, emotional, and financial wounds, instilling in me a pervasive sense of fear, self-blame, and ongoing paranoia. At the time, I had just secured a prestigious internship with the University of Texas at Austin and was enrolled in summer courses. The trauma forced me to withdraw from my courses, although I managed to continue with the internship. This decision came at a significant emotional and financial cost, exacerbating my sense of insecurity and resulting in substantial debt.</p> <p>Detective Moxley's handling of my case has been profoundly disappointing. His failure to follow up on key evidence, consult with establishments the assailant frequented, or secure surveillance footage has left me feeling neglected and unsafe. Despite making Detective Moxley aware of these critical aspects, he did not pursue them, attributing his inaction to case overload and a lack of resources—a poor excuse given the severity of the crime and his responsibilities.</p> <p>The lack of empathy and professionalism from Detective Moxley extended to a failure to keep me informed about the assailant's arrest, release, or the existence of a protective order. This negligence has left me in a state of constant fear and vulnerability, compounded by the absence of support from victim services or any pre-trial warnings.</p> <p>The pressure to publicize my ordeal and advocate for myself has been immense, yet it overlooks the essential fact that I am a person of worth, deserving of protection and justice. Eight months of financial strain, feeling unsafe, and extensive therapy have taken a toll on me—a toll that began with Eddie Hill's attack and was exacerbated by Detective Moxley's failure to conduct a thorough investigation.</p>	

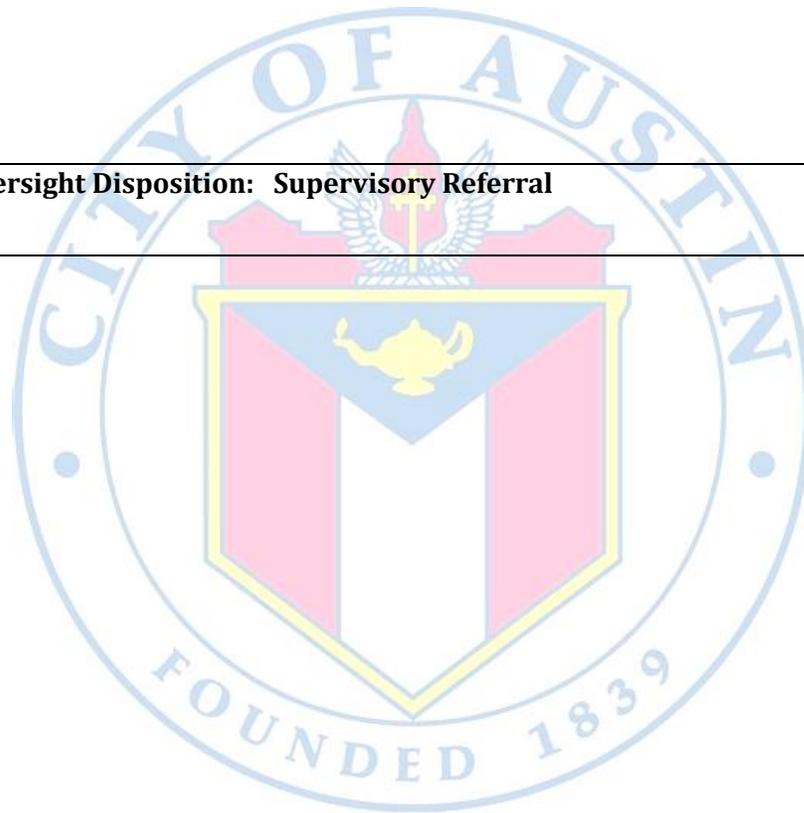

## OFFICE OF POLICE OVERSIGHT

**Detective Moxley's negligence in utilizing available resources, such as video surveillance and bar footage, has not only failed me but also his duty to uphold justice. My requests for relocation and accommodation stem from a legitimate concern for my safety, not just from the assailant but from a system that has repeatedly failed to protect or support me.**

**I implore a reevaluation of my case, not just for my own sake but for the sake of all who rely on our justice system for protection and accountability. Detective Moxley's disregard for his duties has left a glaring absence of evidence and a failure to pursue justice on my behalf. My hope now lies in moving forward with my studies and seeking a just resolution to this appeal.**

<b>Complaint:</b> <p>He and a friend, [REDACTED], were sitting in the same car from a previous incident earlier that week. They were just looking at Facebook on their phones and talking when APD Supervisor Dawson/badge #8201, and APD Officer Mackey/badge #9765 approached their vehicle. The officers then told the complainant he had to get out of the car so they could search him. He told the officers he didn't have to do anything because he had not done anything. At that point, the APD Supervisor grabbed his taser and made him get out of the car. He told the officers once he got out of the car, he was going to need their badge numbers for harassment. After they searched him, they told him he was detained. The complainant slammed both of his car doors and started to walk to his house, but the officers told him he was detained. When he asked the main officer for his badge number the officer tried to change the subject. The officers did not even have a call to respond to in the area. The officers told him they were in the area because it was a high crime rate area. They told him his friend was just a suspicious person in a suspicious area. One of the officers was a sheriff but the other three were APD officers (one of them knows him from previous cases and that officer has been harassing him forever) The APD officers started making jokes like "Oh -- here they come". <b>Complaint:</b> <p>Dear Sir/Madam,</p> <p>I am writing to bring a disturbing incident to your attention that involves Lieutenant Chris Davis of the Austin Police Department. This incident pertains to a citizen's complaint regarding missing medication in a hotel and the subsequent mishandling of the misconduct complaint by the officer Gonzalez(5635)</p> <p>On December 13, 2023 I dialed the emergency 911 line to send an officer to make a report about missing medication for client, after I reported and General Manager handled the matter poorly by threatened to kick us out by retaliating hoping to avail an officer's assistance for making a citizen's complaint. I called few days later. However, I was informed by the operator that my case number considered a disturbance of the peace caused by citizens. This labeling is highly concerning, as it indicates an unconstitutional and unacceptable disregard for citizen safety. I was referred to Lieutenant Christopher Davis. I was told by Lieutenant "I need to throw Ada Compliant out the window". We don't feel safe with our safety with the lack of humanity and failure to accommodate with your officers Lieutenant Chris Davis (#Badge unknown) and Gonzalez (5635)I assured Lieutenant this is the whole point of the complaint was violation after violation with not complying with ADA Act. This raises a red flag with Austin Police Department with this type of discrimination.</p> <p>As a concerned citizen, I firmly believe that the primary role of a public servant, especially a law enforcement officer, is to ensure the safety and well-being of the community they serve. In this instance, the failure to recognize the legitimate concerns and distress caused by missing medication speaks directly to the officer's negligence in performing their duty. It is the responsibility of the police department to address such citizen grievances promptly and efficiently.</p> <p>I humbly request that the Internal Affairs Division conduct a thorough investigation into this incident, including the actions of Lieutenant Chris Davis and the subsequent mishandling of my complaint. I firmly believe that, as a taxpayer and member of this community, I am entitled to a prompt and appropriate response from law enforcement officers, particularly in matters pertaining to public safety.</p>	

## OFFICE OF POLICE OVERSIGHT

I trust that the Internal Affairs Division will undertake a comprehensive review of this issue and take appropriate action to rectify the situation. It is imperative that public servants, especially police officers, uphold their duty to serve and protect the citizens, addressing their concerns with the seriousness they deserve.

Thank you for your attention to this matter. I look forward to receiving a prompt response and assurance that appropriate action will be taken.

Sincerely,

<b>Complaint:</b>  The complainant alleges:  I was referred to report this by [REDACTED], executive director at the Office of Police Complaints for Washington, DC.  I experienced a serious incident that required police involvement in November of 2022. The situation involved an individual coming to my home stating he was contracted by the management of the home to do work/check equipment. Both my husband and I were home and after working through out our home for an hour he left. One day later the same individual came to our door, this time dressed in a suit with a partner. He showed an FBI badge to my husband and then the two of them sat with my husband speaking to him about a personal text between him and his previous manager at a job he had not worked at for over 9 months. This of course began an explosion of inquiries including calling and speaking to the owner of the company, Austin Premier Fire, which he claimed he was with the first visit to our home. Then the APD and the local FBI office. The FBI office assured me if a man came to my home, "worked in your walls and panels through out your home, moved things around, this was not FBI. We cannot do that - pretend to be employed as a contracted worker and come in your house unannounced". APD opened a case and assigned an investigator. This was:  Case # 22-500-5882 / Detective Charles Jackson  Unfortunately Charles Jackson "shelved the case" abruptly and without solid reasoning. He stated the reason as, "He was given too much information". He had not made one phone call or done any investigative work whatsoever. He falsified dates on his report. He put the Date of Offense as Feb 15,2022 and the date of report as Feb 26, 2022. The date of Offense was Nov 15, 2022. I emailed Det. Jackson the synopsis of what happened on March 23, 2022 so it isn't possible that the report was dated prior to receiving any information on the case.  Another case was opened on May 20, 2022 over the original incident after APD was called to my home where management and Austin Premier Fire were going to "bust down my door" as I would not allow them in to check my fire equipment because of this very incident. I wanted the fire Marshall to come first as I did not know what that person had done in my walls. The police who	

## OFFICE OF POLICE OVERSIGHT

responded to the managements phone call were APD officers were C. Jones #6662 and Ofc. Nguyen #7555. These officers assured me I did not have to let anyone into my home and assured me I was within my rights not to allow that company in and have the fire department out to check my equipment. However he said the one benefit of allowing them in while they were present was the fact they wore body cams and the entire visit would be on film which I may benefit from later. I agreed. The same man from Austin Premier Fire, who had been in my house both as an employee and an FBI agent once again came into my home! Why would they send the same employee who had caused so much trouble for me and destroyed the relationship between the management company of my home and our family. Before the officers left they created a report of Suspicious Person and Stalking:

Case # 22-140-0924 / Det Thomas Montez

To my knowledge nothing has been investigated in this case. Thomas Montez told my husband he had to close the case because, "the case stated he (my husband) was present when the officers and the APF employee were allowed in our home and because he didn't identify him at that time the case was closed". This was a complete lie. As soon as I was able to get a copy of the full report and found that it clearly stated [REDACTED] was not present during the incident that I was able to speak to the Sargent over the investigation, [REDACTED]. Mrs. [REDACTED] assured me the case was NOT closed, but was in a pending status as, "there was no person of interest". Which I found completely bizarre as the key suspect came as an employee of a company here in Austin of which I had already spoken to the owner several times. Since then Sgt. Pacifico has been promoted and now a Sgt Varkony is over the case who I have reached out to numerous times to no avail. Why is this case clearly being ingnored?? I would imagine an individual posing as a federal agent would be a great interest to any sworn officer. Why the lies on the date of offense, date of report, and who was present? I am waiting for an investigation involving Stalking yet not one shred of investigative work has been done. Two officers, no detectives, falsified information on police reports... completely lied about specific details. I want it investigated. I want to know why this same case has been opened twice and still there has been no investigative work done period.

To Clarify two detectives falsified information on police reports and lied about the reason as to why they were not going to investigate a STALKING case.

<b>Complaint:</b>  The complainant alleges:  Travis county continued the abuse. Deputy Piss came up behind me when I stopped to get gas at 7/11 on Payton gin . Called Sgt. Bowman told me I had a warrant which was a lie. It had been quashed in the dismissal of my case on Feb. 12th 2020. Towed my car sent my dog to the pound.calling me a liar. I told them they would owe me an apology. While my boyfriend was standing right there.ripped out my scar tissue pulling my arms back too far. and made the younger officer put his hands inside my bra and the waistband of my underwear. In broad view of everyone ( meant to demean me. Made the officer uncomfortable I cried I new this time they would finish the job. But the next morning at 8am told me I was free to go. With no paperwork no nothing. I assumed it was a trick. I reported it and nothing happened once again. The police review s are a joke. Why is it no one cared when I told them that I was tortured. Say the word TORTURE. IT TOOK ME 4MONTHS TO SAY IT OUT LOUD! I have just found out that the Deputies in Wilco and all law enforcement in Texas were told to obstruct me in any way possible. Yes Commander Tim Ryle rewinded the tape after watching it several times and put it back in the recorder to be recorded over destroying evidence. No one did anything to stop him. The whole station out onto the street could hear my screams and no one did anything to stop them. I lost consciousness for up to 4 minutes at a time. I died that morning. They demeaned me, belittling me and women period. They had an inmate watching me to make sure I didn"t stop breathing. Checking my pulse every ten minutes. "All I need is a pulse Dep. Turner said. Commander Steve Deaton said "You"re a grown woman,you should know better" I still don"t know what he meant by that. They accused me of attempting suicide to cover their arses. And sealed my file. Not before they tried to commit me to keep me from telling anyone. They harassed me so severely that I thought I was losing my mind. And no one would do anything. [REDACTED] knew what happened and turned a blind eye. A former IA Lt [REDACTED] ( [REDACTED] ) told me everything. I was right all along. Lawyers screamed at me accused me of lying. Saying it wouldn"t be worth prosecuting. My God they tortured me. You can"t call it anything else. Not worth prosecuting. There is no statute of limitations on torture. I am going to sue the entire state of Texas, Homeland security held me prisoner for 9 mos with no charges at max security complex Florence.Then dumped me in the desert with \$5 at 430 am in Tucson. Why won"t anyone help me. I am sending this for press release today.

The FBI, Texas Rangers and Wilco Al Lt. [REDACTED] (Who told me "Sometimes Lawful is Awful") all obstructed my case. For two years and beyond I was railroaded in a case that wasn't my doing they caused havoc in my life costing me my reputation, my life, my gear 3 businesses, my marriage, 6 vehicles. Inventory to my boutique. Stolen by tow trucks, in their crew. Stolen storage sheds. 22 cell phones and everything I owned stolen by storage companies run by people in their network. Email handles were sandboxed (coding the password boxes so no matter what you put in it denied access.) Disrupting my life so badly I now live in constant pain with arms that don't function right. A destroyed lymphatic system. And nerve damage so bad that every single morning I wake up in excruciating pain. Every single god damn day. Can you imagine. That's still not as bad as the mind fuck of experiencing TORTURE at the hands of the people sworn to protect you. But that's not as bad as every lawyer you encountered telling you that you being tortured is not a good enough reason to help you. You begin to doubt your very existence not to mention finding out that these guys really think they don't have to follow the law. What's it going to take before you do something? Today it's me. Tomorrow it's your Sister or your daughter. Please I have a 75 page manifesto and Status of affidavit ready to go. Help me send a message that the news organizations won't help cover up their heinous acts of criminals hiding behind the badge.

The complainant got arrested when he was living in Austin. The tags on his car were an issue, and APD towed his car and found drugs so he went to spend a couple days in Del Valle. The woman who was supposed to hold his car for him ended up saying the car was hers and forging documents when the complainant never signed the car over to her. When he spoke with the Detective on February 7th said he was going to close the case. The complainant says the woman lied to the detective and showed him fake documents about buying him out. The complainant also wanted to report that the detective tried to blackmail him and said he would file a warrant against the complainant. <b>The complainant alleges:</b>  The complainant alleges:  February 8, 2024  Dear Office of Police Oversight,  This complaint is a follow-up to the November 6, 2023 complaint against the APD officer allegedly STALKING me, [REDACTED] - a Straight Christian Man, early this morning in Rosedale. Details follow.  Today, February 8, 2024, between 7:30 AM and 7:40 AM on Maybelle between 44th and 45th, I was standing outside on the property of Rosedale Baptist Church, where I, persecuted Christian, whistleblower, and targeted individual, have permission to take refuge when the church is closed, when black and white APD vehicle #7547 rolled up and parked directly across the street in Trinity Lutheran Church's empty parking lot, facing me, engine idling. Though guilty cop will likely claim to have only been staging/resting there, he could and should have done that elsewhere to NOT watch me like a STALKING FAGGOT BITCH. There was NO other reason to be there because that area was quiet; NOTHING was going on over there.  Then after I angrily stared at the guilty STALKING cop but peacefully walked away northbound on Maybelle toward 45th, the guilty STALKING cop started FOLLOWING me in black and white APD vehicle #7547. I then stopped in my tracks and turned back to face the STALKING cop wrongly FOLLOWING me in black and white APD vehicle #7547. Guilty STALKING cop then slowly drove by me without stopping or saying a word, before then making a right turn onto 45th . However, because guilty STALKING cop was driving slowly even after passing me and subsequently heading eastbound on 45th, WITHOUT flashing lights or siren, guilty STALKING cop did NOT appear to be answering an official call. Therefore, guilty STALKING cop's sole reason for being in Trinity Lutheran Church's empty parking lot between 7:30 AM and 7:40 AM on Maybelle was to TARGET, HARASS, AND STALK ME. FUCK THAT ABUSE OF OFFICIAL CAPACITY SEX OFFENDER STALKING FAGGOT SHIT.	

# OFFICE OF POLICE OVERSIGHT

Because almost exactly the same APD STALKING SHIT happened November 6, 2023, between 6:30 AM and 6:40 AM, in the exact same place, APD has NOT internally solved this problem though I filed a complaint then with the Office of Police Oversight. Therefore, expect me to publicly call out APD, on record, on TV, at City Hall because APD STALKING SHIT will NOT be tolerated by me or the public at large. Because APD tracks when and where all units are at all times, ID the guilty cop by black and white APD vehicle #7547, and FIRE him. Also, this STALKING APD officer is a DUMB ASS because I have previously and repeatedly supported APD, in writing and public speaking. Targeting me, an advocate for law and order, is ALIEN, UPSIDE-DOWN, ASS-BACKWARDS, and WRONG, just like Obama's LGBTQ mentally ill mindset. God Bless President Trump - our true president. Trump 2024.

<b>The complainant alleges:</b> <p>He was involved in an accident. He was on Ben White Blvd, not moving, waiting to turn on Congress Avenue when a van exited a service station behind him. There was not enough room and the driver collided with his vehicle. He called 911 and it was determined the police were not going to be there any time soon. They moved their vehicles to the service station that the other driver pulled out of. 911 was very confused and did not seem to know what was going on. He called 911 a 3rd time and the operator indicated something like "There is no one dying there" or something similar to that and told him they should exchange information, but the other driver did not have a driver's license. 911 did not think that the incident was that important. 911 needs training. The police should be able to respond to an accident. He attributed no response to APD lashing out at the city for defunding them by not having enough officers to respond. The City of Austin bears a lot of responsibility and APD bears some and the 911 dispatcher shares a lot of responsibility for not handling things right. He pays a lot of taxes, and his feeling now is to not support funding for APD, and he may be switching on the police to defund them further if they are not going to show up and do their jobs. He does not believe a citizen should have to impose themselves on other citizens during a situation that may end up in fights and shootouts. Now he has a classic car that is damaged, and he does not know what it will cost to fix it or if it can even be fixed because it is an older car. The problem is the city is failing in so many areas. He wants a response from a supervisor in the police department to explain to him what the protocol is when there is an accident. There should be a timeframe for when an officer will respond. He doubts if anything will be done.</p>

<b>The complainant alleges:</b> <p>He was involved in a hit-and-run accident and has not been able to speak to a detective regarding the accident. Someone from APD has been calling him but has not left a name and number so he can return the call. He has missed several of the calls now he has to start over again by making another request through 311. He needs to get the issue resolved. It should not be this difficult to make a report for a hit-and-run</p>

<b>The complainant alleges:</b> <p>There are protestors in Austin protesting the opening of a new scientology church on Guadalupe St. across the street from the Baptist Church. APD officers have been called to the protests and the complainant believes that the officer's demeanor has changed as the opening of the church draws closer. Today 2/23/2024 11:15 am one of the protestors came online to show the police officers closing the entire street without a permit, due to safety concerns instead of moving the stage. The officers refuse to have a discussion with the protestors because the "protestors have a bad attitude". APD is kicking the protestors out.</p>

There were signs for "no dumping" but nothing about "no trespassing". He tried to find the officers, but they were nowhere to be seen. The officers left their vehicles running with the windows down and keys in the vehicle. Someone could have stolen the officer's vehicle.</p>

<b>Complaint:</b> <p>A vehicle ran over his foot. He was taken to the hospital because his foot was broken, and he is now bedridden. When he was at the hospital no police report was taken. The next day he called, and a police report was issued (24-431376). The person who ran over his foot took off and It seems APD is not doing anything about it. When he calls the police or the detective, no one ever answers or returns his calls. He is not getting anywhere with his case, and he needs to know the status of his case and if someone is handling it. Every time he calls, he is told he has a new detective, and he does not know who the real detective is who is handling his case.</p>

<b>Complaint:</b> The complainant wanted to report an incident that happened 2/26/2024 4:50 pm. She called 311 and was told an APD officer would return her call to take the report. The APD officer who called her back today at 10:40 am and was rude over the phone, told the complainant she reported this incorrectly and told her to call 911 in the future. She believes she was called to be scolded for mishandling the report and then the officer hung up before she could make the report.

<b>Complaint:</b> From February 24th through February 27th the complainant has put in service requests with 311 for callbacks from an APD detective. APD is returning her calls but hanging up before she has a chance to answer the phone and then they close out her request for a callback. When she does answer the phone, APD hangs up on her and closes out the callback request before she has an opportunity to make a report. She does not know why they are doing this. Previously she filed another report with OPO that was not investigated, so the non-response from APD makes her feel very aggravated and very anxious. It all seems like it is intentional and that could be because of what happened before when APD intruded on her mental health and did not acknowledge what happened to her.
