

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

July 29, 2022

ICMS #: 2022-0615

On July 25, 2022, the OPO received an email complaint.

The complainant alleges: I was at the intersection of [REDACTED] and [REDACTED]. This is a really busy intersection because traffic going north and south bound do not have to stop. I continued to wait as there was heavy traffic around [REDACTED] ([REDACTED]) and crossing would be difficult and a likely accident could happen at any time. Meanwhile as I continued to wait for a safe opening for me to cross an officer in patrol car [REDACTED] continued to just blow his/her horn to make me go across. I looked in my rear view mirror to make sure he did not have his light or siren on and he did not. Us citizens get in lots of trouble about road rage and here I am getting this from an officer of the law who is paid to protect us and make sure we are safe but he/she was forcing me to take a chance and cross a busy intersection. When I finally crossed he drove right behind me but than he had to stop at the light on [REDACTED]. I pumped gas and he was still sitting at the light so there were no emergency. This was pure road rage. You officers expect us to obey the laws and respect you officers when you have an officer like this that truly thinks they can just push us around. Please contact me this was very upsetting and I want to know how his/her superior will discipline this officer. Please contact me as soon as possible.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
