| <b>Austin Police Officers Involved:</b> Clawson, Robert AP5897  | <b>Unknown:</b> <input type="checkbox"/>  |
| <b>Complaint:</b><br>March 4, 2024<br><br>Dear Office of Police Oversight,<br><br>This complaint is against White Male APD Officer Clawson - Badge #5897 re: his "bad old days" harassment detention of me, [REDACTED], on March 2, 2024 at CAP METRO bus stop 967 [on southbound Woodrow, between Brentwood and Koenig] between 8:20 AM and 9:15 AM, also documented in APD Case No. 240620436. Details follow.<br><br>Officer Clawson [#5897] was called out to CAP METRO bus stop 967 [on southbound Woodrow, between Brentwood and Koenig] because guilty older short Black belligerent female bus driver - Operator ID #321150 told CAP METRO dispatch over the bus phone that I, [REDACTED], was "threatening" her, though I NEVER threatened her with imminent bodily injury. In fact, with pen and paper in hand, I repeatedly told her I was going to LAWFULLY hold her accountable for her REFUSING to lower Bus #2356 for my boarding, violating CAP METRO policy and procedure requiring her to do so for ALL boarding Passengers. Her FALSE statement and attempted CRYBULLYING first brought out Black Male CAP METRO Supervisors T - 50 and B - 35, though B - 35 left prior to Officer Clawson [#5897]"s arrival.<br><br>In fact, by the time Officer Clawson [#5897] arrived on scene, there was no need for him to be there, evidenced by CAP METRO Supervisor T - 50 already having removed Operator ID #321150 from the scene, taken Bus #2356 out of service, sent that bus back to the yard with CAP METRO Supervisor B - 35 behind the wheel, and told me to wait there for the next 5- Southbound bus to get on my way. In addition, I saw and heard CAP METRO Supervisor T - 50 speak to security via CAP METRO radio/walkie-talkie, telling them to CANCEL APD and confirming it with a "10-4" when asked to verify.<br><br>Therefore, Officer Clawson arriving a few minutes later was surprising and unnecessary. Making things easy for approaching Officer Clawson so he could be free to fight real crime, I respectfully told him CAP METRO Supervisor T - 50 cancelled the APD call a few minutes before and pointed to CAP METRO Supervisor T - 50 so Officer Clawson could immediately confirm what I was telling him. However, instead of doing that and going on his way, Officer Clawson said he had received no such cancellation. He then detained me in front of CAP METRO Supervisor T - 50, who did NOT publicly admit to having cancelled the unnecessary APD call. |   |

## OFFICE OF POLICE OVERSIGHT

Officer Clawson asked me my name, date of birth, and place of residence, as if I was the problem, though guilty older short Black belligerent female bus driver – Operator ID #321150 was the troublemaker by REFUSING to lower the bus for me, LYING to CAP METRO about me allegedly "threatening" her, and then yelling and cussing at me in front of CAP METRO Supervisor T - 50, including calling me a "HOMELESS MOTHERFUCKER", violating Texas Penal Code 42.01(a)(1) - Disorderly Conduct, by intentionally or knowingly using abusive, indecent, profane, or vulgar language in a public place, and the language by its very utterance tends to incite an immediate breach of the peace. Yet, Officer Clawson did NOT detain or speak with her, only me.

I provided my name. I told Clawson the date of birth matching APD records, but explained that's not me because I'm a born-again Christian. I did NOT provide current place of residence, which seemed to frustrate and anger Clawson, though providing that information was NOT necessary. In fact, during many previous interactions with APD and CAP METRO, name and date of birth is the most ever asked or needed. And I questioned Clawson as to why I even had to provide name and date of birth because I had done nothing wrong.

Clawson said he had to know who he was talking to and that I had done wrong by delaying CAP METRO service. I had previously explained to Clawson that AFTER guilty older short Black belligerent female bus driver – Operator ID #321150 REFUSED to lower the bus for me, I put one foot inside the bus and one outside to stop her from driving away without me and force her to call a supervisor to enforce my public transportation service rights, following CAP METRO Supervisors B - 36 and T - 52's directions from previous interactions with them because they know I have been similarly targeted for a long time by other CAP METRO bus drivers illegally refusing me service. They also know that despite many, many previous complaints having been filed with CAP METRO against the law-breaking, policy-violating drivers, those guilty drivers' targeted discrimination against me continues.

Though Clawson claimed to be on scene to investigate, he soon seemed to be probing for gotcha information unrelated to the call, to use against me for not providing what he wanted. When I lawfully refused to provide my current residence, he allegedly checked with APD records for it in his APD cruiser. When he then asked me if I was still residing at a specific address, I told him I wasn't and hadn't for years. Clawson then said he could cite me for not having updated my Texas Driver's License address within 90 days. When I told him it had expired, he asked me if I was using it as a valid form of ID - another question I did NOT answer. Bottom line, Clawson repeatedly and wrongly tried punishing me for rightly protecting my privacy, especially since I continue being gangstalked throughout Austin, which I told Clawson.

Clawson and I also clashed about the law. He told me CAP METRO was a private entity that could CTN [Criminal Trespass Notification] me from their property [i.e. bus stop] at any time for any reason, or no reason at all, like a private business. I told Clawson he was wrong because public transportation CAP METRO is a Metropolitan Rapid Transit Authority legally defined and governed by Texas Transportation Code - Chapter 451, doing mass transit - "the transportation of passengers and hand-carried packages or baggage of a passenger by a surface, overhead, or

## OFFICE OF POLICE OVERSIGHT

underground means of transportation, or a combination of those means, including motorbus..." per Texas Transportation Code 451.001(a)(2).

In fact, Texas Transportation Code 451.052 defines CAP METRO as a public entity exercising power for public purposes and functions only, thereby requiring just cause to lawfully issue a CTN, unlike a private business. In addition, in 2020, in VIA Metro Transit v. Meck, the Texas Supreme Court made clear CAP METRO is a common carrier, unlike private carrier Greyhound, saying "To qualify as a common carrier (in contrast to a private carrier), the entity must provide transportation services to the general public, as opposed to providing such services only for particular individuals or groups." In addition, when I told Clawson a fellow APD officer [Officer Johnson - Badge #9759] had followed the law, previously telling me [Jan. 2024] CAP METRO could NOT CTN me from a CAP METRO bus stop because it was public transportation property, Clawson said Johnson was wrong, though Johnson was right.

Then, when CAP METRO Supervisor T - 50 wrongly issued me a one-day CTN from CAP METRO bus stop 967 [on southbound Woodrow, between Brentwood and Koenig] to wrongly punish me, Clawson wrongly and unnecessarily extended it to one year to amplify the punishment, overstepping his authority. When I said that was wrong, he disrespectfully told me to "GET OUTTA HERE" WITHOUT providing me the APD Case Number on his own, to try creating another gotcha situation that could have generated an arrest. When I then directly asked Clawson for the APD Case number, he initially REFUSED to provide it to me. When I then asked, "So, you're not going to provide it?", he at first did not respond. Only AFTER I then started walking away from Stop 967 to comply with the BULLSHIT CTN that should NEVER have been issued, to NOT get arrested, did Clawson then only tell me the first few numbers. When I started to write those number down, he quickly blurted out the rest, too fast to copy at the same time, on purpose. Though he eventually gave me his business card with the APD Case number on it, Clawson's psychological warfare was abusive, manipulative, controlling, unprofessional, unnecessary, and an abuse of power and official capacity that has NO place at APD.

In fact, he then stepped too close to me, got in my face, and called me a hypocrite for requesting information from him [APD case number] but not providing information he had requested from me [my current residence]. Not only did Clawson falsely and unprofessionally conflate my right to not respond with his duty to publicly disclose, he also falsely accused me of thinking I knew better than everyone else, which was personal, like he was angry I cited applicable law to legally stand my ground against him. Clawson's misbehavior must be stopped and corrected now. APD's forward progress interacting with the public it serves and protects must NOT be retarded or regressed.

One of the guys started cussing the complainant out. The complainant called the police. When the officer got there, he handcuffed the complainant instead of the people who the complainant called the police on. When he asked the officer why he was being handcuffed the officer said he got a call about a guy with a black shirt, black hair with a gun. 20 minutes later the officer changed his story and said the people did not say he had a gun. The officer told the complainant those people were realtors and had a right to be there and left those people in his house. It made the complainant feel criminal, stupid, and unheard. The complainant stated he would like to speak to the officer's supervisor. APD vehicle #9247 license plate #1408879 Officer Wilson. They took a whole bunch of people to jail that evening and charged them with a class C misdemeanor and a \$500 fine. He is the only one filing a complaint and everyone else is stuck in a mental health episode. Everyone arrested suffers from mental health issues and receives disability checks. Why was everyone arrested if the Texas Penal Code says you cannot go to jail for a class C misdemeanor? How was an arrest possible? Last Saturday night the child began throwing water bottles and using profanity, so he and his wife tried to restrain him. That escalated the situation, and the child became more violent, so they called 911 and requested a mental health officer come out. An officer showed up and saw the child acting aggressively so he put his hand on the child's stomach and ask the parents questions. The officer asked if they wanted to press charges, and they said no. The officer did take him to jail. The officer didn't give the child a chance to put shoes on, so he took him to jail barefoot. [REDACTED] said the officer was aggressive with him even though he had mental health issues and had calmed down. The officer didn't seem to care that the child had mental issues, no shoes and no belt on.</p> <p>The child, [REDACTED] has a case # 24-0550360, went to jail and was released the same day. He said the officer also didn't identify himself or read the child his Miranda rights. The complainant understands that the child committed a crime, so he had to go to jail, but did not appreciate the way everything was handled by the officer. He complied but was body slammed, surrounded by more officers than necessary and treated like animal. My brother could have lost his life last night and every officer would have been to blame, not one officer treated him with the respect a human being deserves. He was arrested. False claims of a gun found on the scene and resisting arrest were made by the officers present. She met the officer outside of the door and told him that the alarm started going off, no one there had set it off but everything was safe there. The officer said OK and walked back to his car. Her issue is that he did not ask her for her name or ID or ask to check the building to make sure no one was holding her hostage and forcing her to say what she said. There is a reason for having an alarm system. Any cop that shows up should make sure they know who they are talking to. She could have been the problem or the person there to rob the business or hurt someone. The officer did not ask for anything, he just left. He did not even tell her his name. There was no exchange of anything. If it is at all possible, she would like it to be known this is not the way they would like situations handled in the future. As a resident and a member of this community, I am alarmed by the implications of such behavior and the potential financial liability it poses to your department.</p> <p>Such behavior not only violates the rights and dignity of individuals but also undermines the trust and confidence that residents should have in law enforcement.</p> <p>Racial profiling and harassment have far-reaching consequences, not only for the victims but also for the reputation and credibility of your department. They are shooting guns, selling drugs, beating up women, working on cars all hours of the night, and playing loud music all hours of the night. A man was chasing a woman down the street beating her with a stick. A man was walking down the street when three men began to chase him and beat him with a shotgun. One of the neighbors called code enforcement and one of the homesteaders found out about it and cut the neighbor's new mailbox in half. There is trash all over the street. APD and Code Enforcement are called at least ten times a week and when and if they respond to the call, they don't do anything. The Complainant and neighbors are afraid to go outside in their neighborhood. |   |

| <b>Complaint:</b><br>He was involved in a car accident on IH 35. They exchanged information because there were no injuries, and their cars were drivable. According to state law, he had 10 days to make a police department. Because the accident was non-emergency, he put in a service request (#24-00076222) with 311 and he was told that someone would call him back within a few days or maybe up to two weeks, which is absurd. On Friday he received two calls from a private number, but his phone is set up to block private numbers, so he had no idea APD had tried to call. A voicemail was left stating "Sorry sir, we tried to call you twice now you have to start the service request process all over again". APD did not leave a callback number. This is a due process problem. He is trying to comply with state law (by filing a police report within 10 days) but the Austin Police Department is making it impossible to do so. By the time APD calls back again, it will be past the ten days required by law, which puts him outside of the law. They need to reinstate the ID number he received from 311 and have an officer call him or give him a number he can call and make the report. The system that is set up is unfair and probably illegal. |   |

The manager accosted him on three separate days near the property cameras. Nothing was ever done. He still suffers from PTSD and the manager may or may not still work there. He finally got a police report for the theft (#20235025002). He does not know the manager's last name and he recently found out she has moved, and he still does not have his stuff. A guy named [REDACTED], who still lives there with a girlfriend, helped her steal his stuff. [REDACTED] moved his stuff to another apartment. Why would APD tell him that it is his responsibility to get the Apartment Manager's information? |   |

| <b>Complaint:</b> <p>On 03/16/24 at about 1230 am, I had just arrived at Austin airport. I was notified by the flight carrier that my luggage was misplaced and would possibly arrive the following day. My luggage contained a firearm and with it being missed placed caused me great concern. I located a airport security staff member and ask for a police officer. The staff instructed me to wait near the service center at baggage claim. The officer arrived and headed directly towards the American Airlines (AA) baggage claim office. At first glance, it appeared the officer was grumpy, over weight and sloppy in appearance. I yelled out to officer to gain his attention. It appeared as if he didn't hear me so I yelled out again louder and said, "Sir!!!!". The officer turned towards me and yelled back, "What!!!!" I approached the officer and attempted to explain why I was requesting his service. The officer motioned for to follow him to the AA baggage claim office. The officer entered the office and asked the staff a few questions then turned to me and said, "there you go" as if the case was solved. I explained to officer that AA had already told me that my luggage was misplaced and it would possibly arrive the following day. I told the officer that my luggage contained a firearm and I wanted a police report for a lost firearm to cover myself. The officer replied, we don't have a crime so I'm not writing a report. I explained to the officer that I never suggested there was a crime, I only wanted a police report for a lost firearm, again the officer refused my request. I ask the officer can I at least have the reference number to this incident, reluctantly the officer wrote that number down on a sticky pad (24-0760170). This officer never identified himself and never asked who I was even when I attempted to hand him my id. In my opinion his appearance, demeanor and behavior did not represent the image I'm sure APD strives for. I believe APD officers should strive to handle ever public encounter with professionalism and represent the agency in the best way possible -no matter if the officer believes it to be a waste of his time. At the time of this complaint my luggage containing the firearm is still missing which adds more validity for my request for a police report.</p> <b>Officer Description:</b><br>White Male |   |

| <b>Complaint:</b><br>His ex-girlfriend broke up with him and she was so upset with him that she filed a complaint for stalking when they lived at the same address. She lived on the second floor of the same address, and he lived on the 3rd floor. He was not stalking her he was just coming home or going somewhere. He moved to another place, and she followed him there. APD took out a warrant on him. APD contracts with the US Marshals and US Marshals shot him in the leg for no reason. They said they shot him because he was not moving fast enough. The US Marshals were very dishonest with him and would not tell him why he was being arrested and he was afraid. The Marshal that shot him was not the most professional person. He wants the Marshal's name so he can file a lawsuit against him and his entire team. The deputy that drove him to the jail told him they had been watching him for two days. Why didn't they just come knock on his door? They did not have to show up and shoot him in the leg. Because of the incident, he was evicted from his apartment. His life has been in a whirlwind since the incident. Every time he calls someone at the police department or Travis County he is treated like an afterthought or treated like he is guilty. No one cares about his side of the story. The investigator who took the case did not question him about the incident that occurred. |   |

| <b>Complaint:</b><br><p>You have APD officers camped out at the back of evergreen cemetery alot, today one was there 1.5 hrs, left making an illegal turn running over white cones to enter airport with lights on to bypass red light then turn down 14th street. Several neighbors are getting tired of them turning on their sirens to go thru lights too. They shouldn't be camping at the graveyard daily with no funeral in progress</p> |   |

| <b>Complaint:</b><br><p>One of his valets was in a car that was hit by another vehicle. When they tried to speak to the person that person drove off. The complainant called 911 and was told that if no one was hurt and the vehicle was drivable, APD would not respond. When he spoke to APD he was told he could not file a report on behalf of another person's vehicle. He is responsible for the vehicle, but he cannot file a report. The insurance companies are coming after him trying to sue him, but he has no way to deal with the situation. He needs a police report in order to move forward with the insurance companies. He needs a solution. He is a licensed business in Austin, and he cannot get help from APD. APD has to have a solution.</p> |   |

| <b>Complaint:</b><br><p>His valet service purchased a lot for the evening. There was a person in the lot that intentionally hit him with his vehicle. He called 911 and the person approached the officers about what happened. The officers asked him if he was hurt, and he responded he was not. The officer told him he did not think there was a case because he was not hurt and there was no camera footage so there was nothing APD could do on their end. He told the officer he felt it was an assault with a vehicle and the person was intoxicated. He told the officer there were witnesses. He asked the officer for contact information so he could file a report. The officer told him that he could not give the name so he could look him up and go shoot him. He feels like things would be different if the person had hit a vehicle instead of him. The person used his vehicle as a weapon and officers are telling him that he is a threat to the guy who hit him.</p> |   |

| <b>Complaint:</b><br><p>The complainant's brakes went out on the highway, so he parked at the Whataburger on Manchaca and Ben White Blvd. He let the managers know, and asked that they not tow him, and they said they wouldn't call a tow truck. He came to get his truck and it was towed. He asked the management if they had it towed, and after looking in their log and records they said no one there had gotten it towed. He found out APD had towed the car for no reason even though it wasn't in a tow away zone and the Whataburger staff did not call it in.</p> |   |

| <b>Complaint:</b><br><p>The complainant was hit by who he believes was a drunk driver. His car was totaled and the complainant sustained 3 injuries. The officer wouldn't help the complainant across the street, had no empathy for the complainant who told him he was injured and hurt. The officer also refused to file a crash report. The officer wanted to call EMS and have the complainant taken to Round Rock, but the complainant didn't want to go to Round Rock so took an Uber to a hospital in Austin. The other driver wasn't ticketed or given a sobriety test. The complainant now has hospital bills and has had to hire a lawyer but can't get any information from APD. No one will give him any information, and everyone is saying that because EMS didn't come, they won't file a crash report. The officer had no compassion for him at all and just wanted to get everyone out of the way and clean up and move on.</p> |   |

| <b>Complaint:</b><br><p>The complainant lives in a 3-story place and lives on the first-floor unit. The police and SWAT came to arrest a man who lives on the third floor. The complainant was asleep when the SWAT called for all the people in the unit to come out. The complainant and her husband came out and were not fully dressed. The officers threw them down and kept touching and grabbing at them even though she just had a towel and underwear on, and her husband was barely dressed, and she asked that they stop. The police also took their phones and left them without any way of communication. The police didn't say why they took the phones. They use their phones for their jobs and aren't able to pay rent and eat. They are left without anything. When they were interviewed on site, the complainant was so upset that she had forgotten she was abused by the police officer, so she told them no. When her husband was interviewed, he did let the officers know they had been mistreated.</p> |   |

| <b>Complaint:</b><br><p>While leaving the Exonn at Cameron and Athletic near 290, I entered Cameron road in the right lane behind a bus. Then I moved across to the left lane to take a left into the La Costa shopping center. There is not a left turn lane thus had to reduce speed and pause to turn left.</p> <p>At this moment, the officer driving unit 162 sped towards me and laid on his horn. Due to the unprofessionalism displayed by the officer, I elected to not turn and then drove to the next stop light where the officer was at a red light. When asked why he honked, he stated because I stopped to turn left however as mentioned before there was not a turn lane this was the safe option. He was unprofessional as he provided his response and then began stating that my pulling up to him to inquire was also an issue.</p> <p>Overall, if the officer felt this was a significant issue and need for providing guidance to the driving that occurred, he had options to do so much more professionally. I appreciate the work of APD and hate to submit this, yet am in hopes that will help enhance the professionalism of those patrolling in our area. Thank you for what you do!</p> |   |
