

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

January 27, 2023

ICMS #: 2023-0076

On January 26, 2023, the OPO received a phone complaint.

The complainant alleges: She has been dealing with APD multiple times about one incident and she has four different case numbers. APD helped her change the locks to the unit. APD picked up several ounces of methamphetamine from the unit as well as marijuana drug paraphernalia from the unit. The complainant called [REDACTED] to make a complaint about the individuals in the unit and APD told her it was a civil matter. The complainant has court documents, as well as body cam footage, showing that the individuals know they are not supposed to be in the unit and APD has failed to do anything. She called [REDACTED] because the glass window was broken in the unit. She has body cam footage stating the individuals are not supposed to be in the unit and the individuals even told the officers they know that they are not supposed to be in the unit. The APD officers still did not do anything. APD is still telling her it is a civil matter. If someone breaks into a unit that she has possession of, it is called burglary. She has more than enough evidence to prove the unit belongs to her. APD does not want to do their job and they never want to do their job when they are called so they call it a civil matter. When the complainant was asked why things were still in the unit, she explained they have to have a biohazard team come out because of all the drugs found in the unit and APD has done nothing about that. Also, the individuals have already tried to set the unit on fire and APD has done nothing about that, and she has not heard from the arsenic investigation unit. It is becoming ridiculous. She has been waiting since [REDACTED] for an APD superior to contact her on-site.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
