Complaint Number: 2024-0786	Date of Complaint: 8/1/2024
Complainant's Name (if given): [REDACTED]	Anonymous <input type="checkbox"/>
Nature of complaint: Improper Police Procedure	
Austin Police Officers Involved: 8893- Crumes, Ariel	Unknown: <input type="checkbox"/>
Complaint: <p>My experience with the Austin Police Department has been absolutely miserable. I am floored by the carelessness of Ofc. Ariel Crumes, Badge AP8893.</p> <p>Ofc. Crumes responded to a vehicle collision on May 13th, 2024 and prepared Crash Report 241340890. When preparing the Crash Report, I am under the impression and assumption that she incorrectly transcribed the Texas License Plate Number for the Unit 2 involved in the collision. The report reflects that Unit 2 was bearing TX Lic# [REDACTED] which is that license plate that my vehicle, a blue 2023 Tesla Model 3 bears. However, my vehicle was not in the accident. The vehicle that was actually involved in the accident was bearing TX Lic# [REDACTED].</p> <p>While I understand that this is a simple mistake and transcription errors occur, I would allow grace for the error. However, Ofc. Crumes decided to double down. Instead of verifying any driver or insurance information, again, I am under an impression and assumption, she simply used the information that populated as being associated with the TX Lic# [REDACTED].</p> <p>As a result, Ofc. Crumes now has not only my vehicle but also myself listed on a Crash Report for an accident that I was not involved in. Her carelessness has caused me headaches and challenges. I am having to deal with my financing company and insurance company who both have questions about how I was involved in an accident and what the condition of the vehicle is.</p> <p>Thankfully, this has not yet surfaced at work but because travel is a necessary component of my job, if I was in a serious accident as document by Ofc. Crumes, I could be barred from traveling, leaving me unable to fulfill the basic functions of my role, resulting in termination.</p>

Complaint: My name is [REDACTED] and on July,30,2024 I walked to the 7/11 corner store to buy a drink and when I left I went back across the street to the bus stop in front of the social apartments at 1817 E. Oltorf st with my friend to make sure he got on the bus safely Officer Avalrez and Officer Kirchberg mean while had already passed me and made a u-turn in the middle of the street and sped up to us at the bus stop I didn't know they were coming for me and I did nothing wrong so I continued to stand there they turned their lights one and got out of the car in a jump out tactic I was already standing with my hand in my pants and when they told me to remove my hands from my pants I put my hands in the air open palmed to show them that I had nothing and I was unarmed I got rushed I was never asked my name they didn't ask for identification and I was never told I was being detained They immediately grabbed me with excessive force then out of no where I was picked up and slammed on the left side of my body by Officer Kirchberg I don't know who the next officers were but another officer came and helped kirchberg and avalrez pin me to the ground they threatened to shoot me and tase me at that moment i really knew that i was in fear for my life I genuinely was scared i was never read my Miranda rights or anything and i called that out to both officers that they didn't do it and was told "oh we don't do that anymore we're not required to" it wasn't until I was actually placed in handcuffs that they told me I was arrested I asked why and they told me for resisting arrest originally when I asked before they said they pulled me over for Jay walking and I was told at 10:00 pm that I was "the first person they saw Jay walking that day" I was never charged with it though after they picked me up off the ground and went through my pockets and ripped everything out of them there was at least 5-6 officers in total on the scene they said they were scared for something to happen to them when nobody outside at the time was a threat at all there were just a bunch of phones out from what I saw I told them if they didn't feel comfortable conducting their search and talking to me right there at the scene then they should've walked me back across the street to the store or pulled me to a different side of the car out the way instead they chose to once again use excessive force and stuff me in the back of the police car and they ran the light and sped me down the street to a dark place I could tell we were behind some other houses maybe but I could barley see where I was I was held there for at least a extra 10-15 minutes I tired to talk to the officers they were disrespectful and kept walking off from me afterward I was placed back into the car I waited about 10 more minutes then I was able to speak to sergeant Johnson for a little bit he explained everything a little better and expressed that it was out of his control that he couldn't do anything to help me at the time when I was done talking to him all of the officers who pulled up to behind those house sat and talked for a lil bit then I was taken to the downtown precinct and placed in

custody I feel like APD could have handled the entire situation alot better and nobody deserves to be treated in such a manner especially with how many codes and rules I'm sure they broke them selves and it just worries concerns and scares me that people who are supposed to "protect and serve" us civilians have such power to be able to rag doll people and and just do whatever they want to people are able to go home to their family's and kids and wives at the end of the night peacefully with no consequences for their inappropriate and violent actions I sustained injuries after being slammed on my body on dirty ground. I have cuts I have bruises. I was also put into the county jail where I had to pay \$300 to bond out and I spent 24 hours in jail with my newborn and my fiancé at home, these officers turned off their body cameras to drive me to a unsafe not secure location where I was in fear because I didn't know what would happen next Do you remember any details about the officer(s) you'd like to share?: Yes

Austin Police Officers Involved: 8555-Kreisner, Jonathon	Unknown: <input type="checkbox"/>
Complaint: The complainant's wife was a four-way stop. She was about to go when another car failed to stop and hit her, totaling her car. She called the police, and officer Kreisner showed up. The other driver admitted fault. The complainant's wife asked that they issue a citation to the other driver. She asked that the officer write an accident report. Everyone was cooperating. The officer said he would but did not. Now the complainant and his wife have no evidence to make a claim. The insurance company cannot determine fault because the officer never made a citation or took an accident report. They've lost their vehicle because of all of this.

Complaint: <p>She was driving to work and noticed she was being followed by what she stated were undercover police vehicles. She pulled into her work parking lot at 501 E 8th St. She was getting out of her vehicle when four undercover cops in SUVs pulled in, blocked her vehicle and jumped out of their cars with guns drawn. They told her to drop her purse and shut the door so she did. Then they told her to lift her shirt to check for weapons, she complied. Then handcuffed her. She asked why they were doing this and they said it was for a traffic infraction. After that, they requested her spouse exit the vehicle, had thier guns pointed at him and then handcuffed him. She asked why they were doing this for a traffic infraction, and the officer yelled in her face that this was because her boyfriend was a drug dealer. She thought this was very rude, especially considering this was at her job. They searched the vehicle for about an hour. They were released from custody. Her spouse left in an ambulance because he has a back injury and they kept him in cuffs and roughly pushed him down even though he had been telling the officers about his injury. Before the officers released her, they said they pulled her over because she doesn't have a license, the vehicle smelled like marijuana and then said they were letting her go. She asked how they knew her name and he told her it was because the car was registered to her. She stated that the car was registered in her father's name, so she doesn't know how they knew her name or her spouse's name. She feels like she was being harassed. This same group of officers set her boyfriend up some months before in a sting operation. The complainant described another incident of the same group of officers following before. The incident number 24-2261333. The officers involved Mihalik 8283, Labarbera 8923, Personius 8942, Mcintosh 8416</p>

Nature of complaint: Improper Police Procedure	
Austin Police Officers Involved: 9271- Brown, Chase	Unknown: <input type="checkbox"/>
<p>Complaint: Complainant alleges that her 25-year-old daughter called the police during an altercation she was having with her. Complainant later leaves the house to go to a dentist appointment, when Officer Chase Brown flips a u-turn and pulls her over based off the 911 call her daughter made. Once complainant pulls over, the officer asked her to step out of the call. Officer Chase then informs her there was a 911 call where she assaulted her daughter. Complainant alleges the officer just assumed that is what happens and arrests her.</p> <p>Complainant alleges she was having chest pain and anxiety, given she was upset already and now she's going to jail. The ambulance came because she was having chest pains. They took her to the hospital where she alleges Officer Brown kept checking her eyes for what she assumed was him checking for DUI, which she doesn't drink. After about 8 times, she informed the officer that she wasn't going to take another eye test since she passed every one.</p> <p>She informs the officer that she had to use the restroom, so she was uncuffed at that moment and then directed to leave the door open and not flush. Complainant does as she's told, then exits the restroom and Officer Brown goes in after. When Officer Brown exits the restroom, he exits with methamphetamines and tells the complainant 'Look what I found.' Complainant alleges that was not her methamphetamines - she repeatedly stated it wasn't hers.</p> <p>Complainant alleges Officer Brown lied in his report not only about the methamphetamines, but to the incident that happened between her and her daughter. Complainant states that Officer Brown put in his report that she choked her daughter, and her daughter couldn't breathe for 3-5 minutes. Complainant alleges that her daughter admitted the officers report miss represented what actually happened. The police report should have been depicted that the whole ordeal lasted 3-5 minutes: i.e. the slapping, trying to keep her from calling the police, covering her mouth so her daughter's son wouldn't hear her screaming and yelling (because her daughter was messed up on pills.) Complainant alleges that her daughter would attest to this.</p> <p>Case# 24-1091000</p> <p>Complainant says the officer put 'fat' under person particulars.</p>

Complainant alleges that the officer states he was familiar with her, but that she was willing to bet there was never a report between her and him before this incident because she just moved to Austin within the last year.

Complaint: That she experienced a vehicle breakdown on _25 and 290 ramp, where he car began to smoke, forcing her to pull over for safety. After calling 911 for assistance, Officer McColloch arrived at the scene approximately an hour later. Upon arrival, the officer immediately began reprimanding the complainant, stating that she should not be parked on the ramp. The complainant was distressed by this reaction, as the location was not of her choosing but rather where her car had broken down. Furthermore, the complainant alleges that Officer McCulloch repeatedly mispronounced her name, despite asking for it several times, and then laughed at her. The complainant describes the officer as appearing frazzled, unprofessional, and inexperienced. The complainant, whose parents are law enforcement officers in the area, expressed concern that the officer's behavior did not reflect the expected standards of a first responder, and believes that this incident needed to be reported for further review. The complainant stated that this happened between 7:30pm - 8:45pm on August 15th, 2024.

At 4:27 am on July 31st, 2024 one of the thieves/trespassers ended up coming back and I dialed 911, confronted them and requested for APD to send an officer to de escalate and arrest them. I was told by the operator that there were no available officers that could help me even though I witnessed the incident and had the criminal right in front of me. This type of incident is an outrage and insult to Austin residents as it directly implies that we are not guaranteed protection by the Police Department. This also could have escalated into a violent or life threatening situation and there would have been no Police Officer to help. I'm a proud supporter of the Police and First Responders and this was probably the first time I've felt failed by a Police department.

Complaint: To whom it may concern, I was traveling Northbound on Mopac a couple of hours ago during the pouring rain. There was an SUV police car behind me who was tailgating me that I was getting nervous of their distance. I was in the second to slowest lane. I decided to pull to the slowest lane and let him pass me. I got off at my normal exit of Parmer to make a right hand turn. I saw the same SUV in the slowest lane. I remember this as there was some damage to the driver side windshield area with part of the plastic coming up. As the light turned green, he started to go at a faster than normal speed. He got behind a little red car for two blocks and was tailgating him pretty recklessly. Both of them turned right onto the street where the APD substation is. I was able to read the SUVs car Id number and it was 6128. This officer really needs to learn how to drive better in the rain and lead by example. He didn't even use his signals when changing lanes or making a right hand turn on that street to the substation. Thank you, [REDACTED]

OFFICE OF POLICE OVERSIGHT

So , my purpose for contact is to arrange a phone visit with the luitenant of the arresting officers of [REDACTED] regarding a few questions I have.

I am trying to figure out WHY he was arrested to start. What evidence did the officer have ?

And WHY was [REDACTED] unable to file a police report against [REDACTED] for assault that night?

How does he make a police report now bc he would very much like to do so & possibly before the evidence vanishes?

How can access the arresting officers body cam?

Thank you so much in advance for any info regarding this matter

Complaint: <p>Was turning west onto Barton Springs Rd from the Barton Springs parking lot and noticed a squad car on the eastbound shoulder who had pulled over another vehicle. As my girlfriend was driving by (I was sitting in the passenger seat), the squad car made a u-turn, from the opposite shoulder, and almost t-boned her car. She stopped to let the car go ahead of us and the officer lurched forward, coming closer to hitting the driver's side of the car. We began to drive forward so that we could pull over because the squad car had its lights on. The officer then tailgated us as we turned right onto Stratford Dr, then proceeded to rapidly accelerate around us, swerving into the opposite lane in the process. The squad car sped off northbound on Stratford Dr, turned off its lights, and I lost sight of it.</p> <p>It might be worth mentioning that 10 minutes before this incident a male officer pulled into the parking lot next to Pecan Grove Picnic Area and asked me if I had seen "an ice cream truck" or "a sketchy looking red jeep." Once I told I hadn't seen anything of the sort, he drove off rather fast. I mention this because he seemed very frantic and on edge to both me and the people I was with. I have no way of knowing whether this was the same officer that almost t-boned my girlfriend's car, but it seems plausible.</p>

Complaint: Her son was believed to be involved in the juneteenth shooting in Round Rock. APD searched the complainant's home and took cell phones. She was given a detective to contact, and when she did he was rude. So she was given a Seargent's name to contact. When she contacted him, he was also rude. They are not giving her the information she needs about this search. She stated that they were lying and saying there was evidence in the phone, then the next day they said they can't get in the phone. They also gave her a printout of things that were seized in the search, and her cell phone, which was taken, was not listed on there.

Complaint: Complainant alleges that she was having an argument with her partner, then one of the neighbors called the cops. Four officers then arrived and knocked on her door. When she opened the door, all four officers tackled her to the ground, held her down, then turned her around and placed handcuffs on her. During all of this, the officers were laughing at her/making fun of her. The handcuffs were super tight that they caused pain to her wrists. Officers broke her phone with the amount of force that was used. Complainant states she felt like she was going to die. Complainant alleges that she has bruises all over her body; specifically her hands and knees. All this took place in front of her autistic child; and partner. Because of this, she can't work and has no phone.

Complaint: Hello, on Sunday August 11th I was traveling southbound on I35 around 12PM. There was an accident on the northbound side. When I passed by, one of the people who had passed in the accident was laying next to the car and completely visible to the cars passing by on the southbound lanes. I unfortunately saw the deceased man and it was a gruesome scene due to the burns. There were officers on scene, standing next to the man's body. I was extremely shaken up by this and am concerned that there seemed to be no motivation to cover or conceal the body. I read in the news that this accident happened around 8:30am, which was hours before I passed by. The most upsetting thing is the privacy of the deceased seemed to be of no concern. I do not know what APD's policies are in situations like this, but I would hope that privacy for victims would be a higher priority that it was today.

Complaint: <p>I am a Paramedic with ATCEMS. We responded to a call EMS Incident #24225-0228. The subject declined EMS and no obvious medical need was observed. The subject reported to EMS that it was not safe for her to go home as she is being physically abused there. The decision was made to request APD to the scene as the subject made an out cry.</p> <p>As I was stepping out of the location with the subject, my partner remained with the subject, I observed an officer walking into the building. I do not recall the exact wording however, the officer was informed the subject was declining EMS and may be intoxicated. Further more she expressed she is being physically assaulted at home.</p> <p>We walked back into the area where my partner and the subject were. A brief period of time passed and the officer told the subject she had three options: call someone for a ride, go to the sobering center, or go to jail. At this point the subject became increasingly upset.</p> <p>I was able to secure a more private location to speak inside the business. All parties moved to a private office. inside the business The subject was reassured we (EMS) would do whatever we could to assist the subject. I excused myself from the room and called our (C4) collaborative care line to see what resources were avail as the subject was now no longer speaking with anyone. While I was on the phone with our C4, my partner informed me the officer was leaving.</p> <p>While there is much more to the story, the information was found out after the APD officer departed the scene. My issue with this interaction is the officer threatened the victim with jail. This further became evident as the subject attempted multiple times to leave the location because she was afraid she was going to go to jail. DC03 observed the subject trying to leave. DC03 was sitting in his vehicle speaking with an APD SGT about what had been reported to him. DC03 was informed that what he was observing is the subject scared out of her mind that she was going to be taken to jail.</p> <p>We departed the scene only after contacting our supervisor, having eMCOT come to the scene, speaking with Sgt. Bardo - Recommended filing a complaint with this office, and turning patient care over to an all female EMS crew.</p>

Complaint: I can never get a hold of my district reps even after multiple calls and messages. I own a Security Company in Austin and on 10AUG2024 just before midnight we had to call police for a resident's guest yelling & screaming refusing to go inside or leave. APD Sgt (According to dispatch) refused to send someone out. He was threatening violence stating, "I am a felon I am not afraid of violence" and other things. APD arrived after I left and stated that they would not trespass him that it is a civil matter between management and them. In the YEARS that I have done this that has NEVER been the case. As security we are representatives of the property and management. This property particularly we have full authority from management to act on their behalf to remove a person or have them removed. Why now are they refusing if he was in an open common area and told to leave to remove him. That is a safety issue because he is now trespassing and an unwanted person! I have attached the case number for reference as well. [REDACTED]

Complaint: I called 911 at 7:58 PM on 8/19/24 because someone had backed into my car and was refusing to give insurance. They were driving a vehicle that was not their own as well. As said in the first phone call, the man was yelling at me and getting too close to me for comfort. I called again at 8:13 PM to see if anyone was on their way yet. I was told no and just then, an APD officer literally passes my location with no lights or sirens on, in no rush and stopping at red lights. He was clearly not in any type of rush to an emergency yet kept driving right past me. This is the SECOND time that APD has refused to show up to an accident sight. The first time around, all it took was the other person to refuse fault for running a stop sign and their insurance refused to take fault WITHOUT A POLICE REPORT. How can I get one when the police in my city REFUSE to show up??? It's absolutely ridiculous to not be able to rely on emergency services. I have never experienced a city where the first responders simply can't do their jobs until moving here. Yet in pflugerville, their police department is there within seconds. Speaks volumes when the residents of surrounding cities can rely on their police departments and the residents of Austin cannot. It is now 8:35 PM and still haven't heard a peep from anyone in law enforcement. Absolute joke.

Complaint: I called 911 at 4:44PM on 8/20 due to my car overheating. I had two cats and another person with me, and one cat was bleeding. I was told that an officer would call me from an unknown number. After 15+ minutes, we are all beginning to suffer from heat exhaustion and I call my mother to come pick us up and take us home (5 min away). Expecting a call from the officer when he arrives, I tend to my cats' wounds and return to my car 2 hours later since I've heard no word to discover it's been towed. On 8/21, I discover that the officer did not show up on scene till 5:44PM and towed my car at 6:30PM. I've been told from 911 communications that I should've left a note and later been told that officers do not call victims and notes dont hold any legality. I find it ridiculous that APD would expect me to stay at my car for an hour / not try to update me given the 105° heat. Aside from the misinformation, I find it disreputable for this police officer to arrive to the scene an hour later (having information on the case and my phone number) and not reach out to ask any more details. I do not have any blockers for unknown callers, and with the information I had, I was expecting a call. It is unethical to claim I should have waited or known when the officer was to arrive to the scene. If I had continued to wait, I would have compromised the safety of everyone in the car. The passenger and I were suffering from heat exhaustion while the cats were panting and occasionally passing out by the time my mom arrived.

Complaint: Hello, I am writing to complain about police loitering on the B1 floor of the parking garage at 4401 Westgate Blvd. This usually occurs at midday but they are sometimes there in the morning as well. Sometimes there are multiple cars; it appears they consider this property an acceptable place to hang out. Unfortunately, when present, the officers engage in loud conversation, whether with each other or via taking phone calls and responding to communications. As someone with a documented sleep disorder, I am legally entitled to reasonable accommodations under both state and federal law, including the Americans with Disabilities Act (ADA). My condition necessitates a midday nap in my car, and the B1 floor of this garage is the only location where this is feasible. The disruptive behavior of these officers directly interferes with my ability to manage my health condition. The police presence is wholly unfounded; please address this issue ASAP. Under Texas law, particularly Texas Penal Code §30.05, unauthorized presence on private property constitutes criminal trespass. The regular, non-official presence of these officers—engaging in loud conversations, taking phone calls, and responding to communications—violates the intended use of this private property and disrupts the peaceful enjoyment of the premises by lawful occupants. Thanks,

When I called her back to confirm the complaint: Complainant states that she left her baby for maybe 20 minutes while she was trying to talk to her neighbor. She was told the police were called. She doesn't know who called, but if it was the police, she would like to file a complaint because there was no reason to call the police.
