

## OFFICE OF POLICE OVERSIGHT

### NOTICE OF COMPLAINT

---

March 10, 2023

ICMS #: 2023-0202

On March 8, 2023, the OPO received a phone complaint.

**The complainant alleges:** An APD officer in car number [REDACTED] drove past him going 73-75 miles an hour in a 65 mile an hour speed zone. The officer did not use emergency lights and was using his computer. That needs to be addressed. The complainant knows if he had done anything remotely close to that he would gotten pulled over or a ticket. This officer needs to be reprimanded and there needs to be some accountability. The complainant waited all day [REDACTED] but was not able to talk to anyone in the police department and 311 would not connect him. A simple report could have been taken and an incident report number issued. Nineteen hours later OPO responded, and it seems like no one really cares about the incidents that are happening with APD. It seems there are rules for “thee” and not for “me.” There needs to be some accountability, transparency, and more training for APD Officers. Ignorance of the law is not an excuse. The complainant needs to get the officer’s name and ID.

*This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.*
