ICMS #: 2022-0065

On January 27, 2022 the OPO received an online complaint.

**The complainant alleges:** I was located at [REDACTED] and [REDACTED] at the [REDACTED] the store person called the cops on me for having a knife there where 2 cops that pulled up I was having a manic episode when the 2 cops pulled up they got out the car and asked if I had a knife on me they said no and just took my word while witnessing my manic episode I've had this experience before and I know normal protocol is when you get a call about a weapon involved you don't take the person's word you search and that they did not do I kept saying I need help I want to go to [REDACTED] [REDACTED] they kept saying well EMS can take you I said no I want to voluntarily go I know if I'm voluntarily wanting to go that you all should be able to take me they were like well then we would have to make calls and see what we can happen I said ok what's wrong with that they made it seem like it was just too much work so when I realized that I asked if they could call their sergeant he made it seem like he was doing it I then asked for them to write their badge number down they were basically being a smart ass he started saying it I said no write it down he refused then they walked away laughing at me and when they got in their car they basically turned my situation into a show and they turned their sirens on and lights and drove past me laughing
