

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

November 23, 2022

ICMS #: 2022-1066

On November 23, 2022, the OPO received a phone complaint.

The complainant alleges: He was in a car accident and Officer [REDACTED] badge [REDACTED] responded. It was a very clear violation that the person made, to the point that his insurance company closed it after speaking to him. The person basically pulled out in front of him, and he hit them, and the officer did not issue a ticket. The officer did not inspect the card or ask any follow of questions before deciding that he was going to put no one at fault or do anything about it. When he questioned the actions of Officer [REDACTED] he got very upset, saying things like, "I wasn't there at the time. How could I know what happened?" which is funny because if he is saying he did not know what happened how could he make a decision about what didn't happen? The officer did decide to issue the other driver a ticket (case # [REDACTED]) for having no insurance. He has no idea why this officer is on the force. He was not useful and did not make him feel safe. Officer [REDACTED] was very combative with him in a very high-stress situation and made it unnecessarily unsafe for everyone that was there.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
