

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

November 23, 2022

ICMS #: 2022-1063

On November 23, 2022, the OPO received an online complaint.

The complainant alleges: I observed a Commercial Enforcement Officer in Truck # [REDACTED] tailgate a 18 wheeler, and shine the spot light in the drivers eyes from the rear left of the truck. The officer then got on the passenger side of the tractor and continued to shine his spotlight directly into the truck driver's eyes. All this took place as the truck driver was trying to overtake 2 slow moving trucks in the center and right lane. This officer obviously didn't care about the safety of the public. By blinding a driver with direct light to the eyes while driving at 75+ mph, this officer could've caused a major catastrophe. We expect more from our professionals enforcement personnel. I would suggest looking at his cameras if possible. This was a careless and unprofessional act of aggressive driving. No he didn't have his emergency lights on either.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
