

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

September 30, 2022

ICMS #: 2022-0867

On September 29, 2022, the OPO received an email complaint.

The complainant alleges: My name is [REDACTED]. I am a law-abiding citizen, contributing member of my City of Austin, to my state of Texas, to my United States of America and to our world. I support all that is legal, ethical, just, moral, and unbiased. I stand for what is right and decent, and I do not infringe on others.

In my home, I have been victimized by hate crimes, crimes against the elderly, crimes against the disabled, stalking, Hacking, and bullying just to name a few. My current Police Case Number is [REDACTED], Detective [REDACTED]

These episodes presented themselves by employees of [REDACTED] during a Federally mandated city of Austin weatherization process that was to be done in my home in [REDACTED]. These criminals did not complete the work because they were dedicating their time to robbing me. Since this heinous act evidenced itself in unrequited thief, my home has become a target and has been breached continually, I have been robbed and harassed repeatedly. These criminals are so vile and brazen that they have gone through my personal items, my refrigerator, cupboard, steal my food, stole my insulin and other much needed medical supplies, and during the last episode, they took a bath in my guest bathroom, left it dirty, and stole my towels and the bath products therein. They took all my personal papers including my marriage license, birth certificate, and social security card. On more than one occasion and episode they have ram shackled my home to the extent that it looks like it was ravaged by a tornado.

This brazenness of the criminals demonstrates no discretion with how they have repeatedly ramshackle my home. They open my mail and leave it so that I can see that they have ruffled through and opened it. They have gone through my files. Stole my research papers, historical books, and only God know the financial extent of the artwork stolen. They stole jewelry, my mom's my dad's, and my husband's. they stole irreplaceable items of my OSI husband from his service career. His stamp collection, my old money signed by my cousin [REDACTED], old coins, piggy banks, shoes, vintage clothes, clothes with current price tags, designer bags, hats, gloves, lamps etc. etc. They took their time and

NOTICE OF COMPLAINT

ravaged my home. They trifled with my Easter Star Fez and took mementos that distinguish me as an honored member of this organization

I followed police protocol with each incident. (Report to crime to 311 unless it is in progress.) I have repeatedly asked for the police to come to my home to take fingerprints or simply to see evidence of the havoc done. (Never during these incidents of repeated infringements did the police come)

After two detectives, a call from a Sargent [REDACTED] I submitted an online police report and was assigned to Detective [REDACTED]

I learned [REDACTED] that my WIFI was hacked. [REDACTED] the security person from Spectrum told me that there was an IP address coming in to my WIFI and an IP address going out of my WIFI. [REDACTED] from Spectrum, said that he could not tell me who these hackers were, but he could give the information to APD when APD submits a request for the information. (Don't hackers leave a footprint that leads to who they are?) I provided this information by email to Detective [REDACTED] who said that there was nothing he could do. Detective [REDACTED] did erroneously provide me with the wrong email address for Cyber Security for APD. Isn't hacking a federal offense?

The processes and frequencies of these crime evidence that I have been targeted. These crimes cannot be considered no less than Hate Crimes. These vile elements demonstrate no fear of the law, and they appear to be very familiar with police policies. Their actions are indicative of collusion due to the brazenness and familiarity of how they inflict these crimes on me.

All I have asked is for the Austin police to provide equitable treatment to me as it relates to protection, investigations, and due process of the law. They do not call me back when I make a report with 311.

Sargent [REDACTED] accused me of calling and making frequent complaints against the Austin Police Department. She was confrontational in her phone call to me. Detective [REDACTED] suggested that I forget about all that has happened to me and to just let it go. Sargent [REDACTED] told me that Detective [REDACTED] made this "let it go and forget about it" suggestion to me to protect me. At the end of the conversation SGT. [REDACTED] mockingly retorted to me that: "she guesses that at the end of all this, I could sue the APD, the City of Austin and everyone else."

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

I feel that I have been abandoned and left with no support from APD while targeted, victimized with hate crimes, repeatedly robbed, stalked, and left to the devices of these vile criminal elements with no support from our police department. I do not know what position I am in as it relates to these ongoing malicious, hateful acts of intrusion, hate crimes and stalking. I have placed a no trespassing sign in the screen of my entry door.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
