NOTICE OF COMPLAINT

June 10, 2022

ICMS #: 2022-0482

On June 8, 2022, the OPO received an online complaint.

The complainant alleges: On [REDACTED] about [REDACTED] in the evening I called 911 about a man stalking me. It has happened many times already but I did not call 911 to bother polices. Until the last few weeks I saw the man escalating to keep harassing me by stopping me in the midway to say hello, driving around my house, parking his car outside the back of my house. One time when I was crossing a street, he was about to hit his car on me. It makes me scared because I ever warned him many times to stay away from me, stop coming close to me but he still. I decided to call 311 to report him as stalking me and harassing me nearly [REDACTED] ago. Since then I haven't heard back anything from the detective. Until on [REDACTED] I went out to go for a walk as usual, when I turned back I saw him again following. He waved to say hello even many times I warned him and ignored him. He suddenly turn to run across the street to approach me. I got too scared so I yelled it out loud as if I called somebody's name like " Franky". He stopped running to walk away by turning right. I called 911 right after that. The APD sent 1 male officer and 1 female officer come into my house. I did not remember what their names are because I got in stupor at that time. When they got in, I showed the female officer the picture of the man when he was stalking me, I took that picture just in time. The female officer deny to look at it. She asked me for my ID instead by her cranky voices that make me even more scared. After I showed her my ID, she asked me many questions not related to my concerns like how long you guys have been friend even I never told her the man and me were ever friends. I told her we ever worked in a same company and I we had ever talked as normal friends until I found out he had had a crush on me then I banned him from coming into my house. I even blocked his phone number since very long before. She came into my house with her testy attitude as if I was bothering her even this trouble has been bothering me many years already by the man but I did not call polices to report him until nearly [REDACTED] ago as mentioned above. After all, she concluded that it was not stalking as the man and me ever be friends even I told her we just worked in a same company but I quitted many years ago. She did not let the male officer talk to me as she kept asking me questions then they walked away without helping anything at all. Her ignorant attitude even put me in dangers. Many times I was about to tell her more details about the incident happening on
