NOTICE OF FORMAL COMPLAINT

ICMS #: 2021-0766

August 3, 2021

Complaint: The complainant alleges: I am writing after being inappropriately assaulted in my home after simultaneously being harassed by the tenants in my apartment building of [REDACTED] amongst other tenants that have been conspiring against me. The constant inappropriate harassment from the neighbors has had my mental state highly distressed. I've called EMS while experiencing a gastro emergency per a medical issue I have. I was on the phone with EMS the while time while waiting for the officers. Instead APD arrived and broke my door down while I was naked. I tried to prevent this in saying give me a moment as I was trying to get dressed. As I announced I need to put clothes on the officer a male one of 2 put his hands on me to hold me down. I had already announced I was unarmed. I was then put unconscious and do not remember leaving the parking lot. I woke up in the hospital very sore and was put under forced hospitalization and not allowed to return home for a week. I was not experiencing a mental issue. I have been calling regarding these neighboring tenants harassing me for a year now. This assault took place in [REDACTED] and I have written several times and have called several times to oversight in order to report it. I have called several law firms in order to bring this to justice. I have called the national oversight and national as well as local FBI in attempt to receive help against the police's unprecedented and unprofessional attack on me. I as well as everyone associated with me have always been completely compliant with the law. Almost immediately after the sirens attacking me got extremely more shrill and loud in the area towards the entrance of my complex. This scared me to no end. I am of completely sound mind. Since then I have been horribly attacked publicly in order for me not to report this. I have been followed humiliating me including at my job to make me look bad and discredit my account. As an assault victim my heart and mind has been in turmoil. This has all come to a head [REDACTED] and has gotten progressively worse. My reputation has been completely ruined in light of this assault. I have several accounts of people attesting that this is true. My character has been absolutely manipulated and defamed. My privacy has been inappropriately harassed. There are fake bird noises now directly outside of my bedroom window. The have made many vile comments about my body with their sirens. There are sirens working with conspiring new neighbors as I just moved here to keep me as well as the entire neighborhood and city up for hours every night. They in conjunction with [REDACTED] are far too interested sexually harassing me and my personal life at extremely inappropriate times. They have exploited and defamed my life in every way. I am completely innocent of any crime. They brag about killing me and my home and are excessively forcing me to hear they're false insinuations about my home. I am not exaggerating. I am constantly ignored and not taken seriously by way of their intimidation and defamation I fear. I have been treated less than human let alone a young
