### NOTICE OF COMPLAINT

---

September 30, 2022

ICMS #: 2022-0863

On September 29, 2022, the OPO received an email complaint.

**The complainant alleges:** The complainant emailed OPO with a 9 page complaint attached along with 5 other attachments including medical and legal documents. Pasted below are excerpts from the complaint. The complaint in its entirety can be found in the case folder.

My name is [REDACTED]

I experienced false arrest, police brutality, they did not read me my rights, they searched me without a warrant, they denied me medical care for both a head injury which lead to a coma, as well as denial of medical care for complex ptsd, trauma disorder and bi-polar. Then I was in Jail when admitted I said I had a concussion was bi-polar with ptsd and was on ativan ( bento) and ambien and that I needed to goto a hospital because I was going into a coma. They ignored me.

I was sitting on the floor the entire time of this conversation I was not standing up . I never roamed the halls I would like to open a case and get a copy of all the security cameras at the [REDACTED] as evidence I asked for a room and sat down in front of one room [REDACTED] and was there as [REDACTED] tried to engage me in prostitution . [REDACTED] never asked me to leave earlier in the day neither did any of the staff the officer did not try to talk to me about leaving they wouldn't listen to me when I said that [REDACTED] was trying to engage me in prostitution. When I said that none of the police officers even responded or showed any care or concern for my pleas for help and my pleas for safety.

I never knocked on anyones door or roamed the hall I was just looking for safety and to book a room and had money to do both I was not homeless I was experiencing a emotional breakdown due to being sexually assaulted, assaulted and robbed, a head injury and concussion, then [REDACTED] trying to sexually assault me and lying to the police. I assumed the police would arrest [REDACTED] and take me to a hospital due to having a

---

concussion and a clear mental breakdown I should have been taken to the emergency room and a medical team should have been called. It was clear I was injured as well as having a mental breakdown and needed to go to the hospital. They did not explain to me I had to leave, they ignored me when I said that [REDACTED] was trying to engage me in prostitution. I did defend myself saying that I was just trying to book a room and there was nothing illegal about trying to book a room at a hotel, I do not remember clearly if I said I was waiting for my pretend boyfriend which if you had someone threatening to rape you making up a fake boyfriend is a defense and if anything again showed I should have been taken to a hospital and [REDACTED] taken to the jail.

They did not show me their badges or ask me to leave the property they did not give me that option (they lied so much in this report it makes me wonder if they are getting paid to on the backend as the [REDACTED] is what I discovered where a lot of drug deals and prostitution goes down and I know some police are corrupt and involved with the cartel as well as receiving backdoor deals for turning a blind eye or participation or allowance of prostitution to happen. They did not give me the option to leave I would have left I left the other 2 times the police asked me to leave the block I was staying on the block hoping my friends would find me because I used life 360 and the person who molested me wouldn't find me. The police lied. The police never grabbed me I said what is this some human trafficking as sadly the police are and have been involved with human trafficking and I coproduced a festival on ending human trafficking and have been before and in my prior experience the police were paid off by the one doing the human trafficking which sadly happens at a lot of hotels

Please review the screen shots and reviews for this place including open drug use and references to Prostitution

I said again is this some cartel human trafficking things. Then they said I was under arrested and one of them put their hand on their gun, so I stood up with my things and walked over to them and put my hands behind my back.

### NOTICE OF COMPLAINT

---

I never ran from them there was about 5-7 police which seemed extreme, they handcuffed me then had multiple cop cars block off the street, they put me down on the hood of the car without reading me my rights or having a warrant for searching me and held me down while they illegally seized and searched all of my thing as well as injured me by pushing me down against the hood of the police car during the search.

After the search once in the car I just screamed this is how human trafficking happens, and what is this some cartel human trafficking thing.

I would like to get a copy of the body cams, the dash cams and any prison recordings. I would like this case to be investigated by the APD. I understand the limit of 500,000\$ for denial of medical care, false arrest and police brutality, not being read my rights my personal items sized and searched without a warrant and being held and made a ward of the state without just cause. I would like to handle this case internally and to file a claim directly I would like to avoid getting lawyers involved going public or having to sue anyone but I suffered a great deal and lost my feeling of safety. I went missing for [REDACTED] and lost [REDACTED] of my life and allot of projects I was involved with did not happen which cost me allot for my business.

I would like to work with a investigator regarding this person [REDACTED] who is a ghost on social media and I question his involvement with running drugs and prostitution out of the [REDACTED]. I would like to discuss actions to take regarding the police who lied about me evading arrest and trespassing . As trying to book a room at a hotel is not trespassing.

I would like to explore with the APD what to do about [REDACTED] who placed to RITT of attachment on me without seeing me in person which I believe is not legal. I would like to investigate the denial of medical attention both by the officers involved because if I said [REDACTED] was my boyfriend it was either out of fear of being raped or mental illness either should have lead to me being taken to the emergency room not a jail. I would like to explore

pressing charges against [REDACTED] for trying to solicit sex and engage me as a prostitute illegally.

I would like to work with the APD around the false charges and arrest made by the officers involved as well as the false diagnose made by [REDACTED] which caused me to be a ward of the state. I would like my record to be expunged and need help going about that as I do not know how to have a record expunged.

I would like to work with the APD directly on how to file and claim and to who regarding my losses as I do not want this to involve lawyers or go public if possible I have suffered enough and do not want to suffer anymore due to false allegations and false information. I should have never been arrested or put in jail I should have been taken to a emergency room and potentially to a place like [REDACTED] as I had private insurance if anything due to experiencing trauma after being taken to a hospital for a concussion which lead to a coma. If you could help direct me to the proper channels or investigators or help to find justice and peace as well as file a fair claim for my losses I would appreciate it. i would still like to visit or live in Austin full or part time but want to feel safe. I do not want to make enemies with the APD as I know this was a isolated case and am aware that it doesn't reflect on Austin the state of TEXAS as a whole but would also like something to cover the damages and injury I experienced as well as the trauma. So if you could help direct me to the correct people and protocol to handle this with as little impact or conflict I would like to resolve this case as quickly, quietly but I am seeking justice and resolutions. That are fair based on the trauma and impact I experienced on my life and my work. I want to feel safe with the APD as well as in Austin and again I understand this was a isolated event.

Below are attached documents regarding my case and I am seeking advice and communication on how to do this with as much ease and least further trauma or damages to all parties involved yet I am seeking justice, and was treated inhumanly and accused of crimes I did not commit and punished unfairly. Attached are some of the files I have received I would like a copy of the body cams, the dash cams, the prison cams, any

additional court documents, the documents [REDACTED] submitted turning me into a ward of the state without ever seeing me in person.

*This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.*
