### NOTICE OF COMPLAINT

May 27, 2022

ICMS #: 2022-0431

On May 27, 2022, the OPO received an online complaint.

**The complainant alleges:** THE APD sworn officers during an incident on [REDACTED] between approx [REDACTED], [REDACTED], [REDACTED]. Defendant [REDACTED], white male, non Hispanic...5 10 ...145 lbs Sworn officers (two of them listed as complaintants that day). Badge numbers? Swore under the penalty of perjury that they being sworn and lawfully employed by Austin PD that I assaulted In two counts (Second degree twice concurrent due to cause number). That I assaulted them specifically because I "pulled my hand back and although I did not strike on of them with it, they felt defensive because of it...))) Assault is defined TEXAS code as any injury occurring, .... Either way, the crux of today"s report is the fact that five or six officers there were aware me being tazed, yet no report of it was made. Additionally, a Move for Discovery made by state and defense and approved by the court, that discovery has yet to show up to my lawyers office or the DAS. BODY CAM FOOTAGE OF TAZING, THE device and voltage used by sworn officers , etc etc, has yet to turn up or is perhaps being stalled if not MIA. REGARDLESS, the lack of body cam footage would certainly pose classic their word versus mine argument... Not only that, there was a child there (small hisp...3-4 years of age I would guess that was unfortunately exposed visually to officers attempting to help her during crisis I was told, yet they were attempting to "run a train" (probably tape) and we"re with the degree of success on the female adult apparently in charge of the juvenile. Officers were behaving strangely being that [REDACTED] WAS playing lookup instead of inside with his partner, however there were all in all three units and five to six officers there for whatever incident brought them there, upper tier [REDACTED] building second to the right of office) as the discovery will indicate.... Blame was shifted and the prior situation was swept under the rug at least in terms of the reason for their presence that day. If the units were there I"m response to my presence then they certainly went about it in a very strange way. I became the side issue and suddenly they had a legitimate cause for being there. ..

Additional information: Austin ems responder, in yellow and blue Atx CITY, Trav county. Ems ....vehicle [REDACTED]' somewhere in here. All in all very helpful and ultimately professional given the way it was all Carried out. Came upon myself and officers at small stoop facing

EAST directly north of leasing office ...Where two or so officers from before were rehearsing story about "what physical action (headbutt) did I perform?" I was worried that after being tazed with the standard yellow officer taser, (VOLTAGE???). ADDITIONALLY, hobbling and hinting at throwing me over the edge of the stairs , overreacting and acting completely irrational for a uniformed officer...sgt, an lead writer of report
