

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

May 6, 2022

ICMS #: 2022-0339

On May 2, 2022, the OPO received an online complaint.

The complainant alleges: [REDACTED] again, I reported illegal handicapped parking. I have been harassed by this parking where residents had a license plate that said [REDACTED] and whereas the HOA president stated that I was jealous of everyone illegally parking and threw me off a Board of Directors and has taken me to court for 5 years to try to throw me out of my home. This is not a private parking area. This is mixed use and owners state that the police are just ignorant - in actuality the gate is being used for obstruction of justice. I tried to commit suicide from the lawsuits that have bankrupted me and threatened to throw me out on the street while [REDACTED] laughs, and the residents laugh at it. One single parking ticket or written violation to [REDACTED] could have saved my life that day. I am permanently affected. I wrote into the police complaining and since [REDACTED] has police connections, ever since then; since he learned that I tried to commit suicide, the illegal parking harassment has ramped up hoping that the same will occur. I suppose the police are hoping to enable this behavior further. People who are suicidal are not homicidal. This is ignorance on the part of the police department. I would like a copy of this report in writing to expose this to interested parties. Thank you. [REDACTED] Note that I have pictures, medical evidence and much more that I prefer to share with Attorneys instead of a police department that seems to corruptly be in the back pocket of some Kitchen Business Owner.

I've been harassed by illegal handicapped parking and stalking by [REDACTED] of [REDACTED] and [REDACTED]. I have been taken to court to ask to be removed from my home. I have attempted suicide and still no one will do their job. This officer stated that she would not ticket this vehicle simply because [REDACTED] did not want her to and also asked him to come out and speak with me which violates not only a restraining order - if he wanted to be restrained from me - why did [REDACTED] so excitedly have him come out to speak with me which also violates a gag order. People think my life is funny - I've tried to take my life over the devaluation of my property and kids are laughing or huffing and puffing and saying - why are you making such a big deal? No concerns for harassment - This police officer is more interested in gaining the attention of men than doing her job. Pathetic to say the least. However, she did nothing to review the laws or the evidence sent to her and I would like this escalated and to obtain a copy of this report.

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

I don't know her Supervisor's name but she was supposed to file a report for harassment and retaliation. There are basic legalities for retaliation cases and you cannot retaliate against anyone who files a complaint for compliance or permitting issues. This is a clear case of retaliation. She is just too lazy to do the work. I will be posting all of these videos online to continue to have everyone around the country see just how pathetic and corrupt this police department is and how corrupt a city is to rip off poor people with over-valued properties - fraud and retaliation - evident to everyone except those covering up for the city and this business owner. No one is buying it. Just so everyone knows and my life is important and valuable and you are accountable for not doing anything to cause my attempted suicide. Ignorant and Lazy doesn't work.

Officer [REDACTED] said that she would not park the person who was not disabled who has been reported multiple times for illegal parking in an ADA regulated parking space in violation of S.B. No. 52. The police continue to tell me that they cannot ticket anyone because the gate makes this a private parking space. That is complete bullshit. According to this law, there are no specifications that cause a gate to make a parking space that was zoned mixed use residential - meaning that the parking space holds a public accommodation that is regulated by ADA compliance laws. [REDACTED] continues to state that he does not have to comply with ADA because he owns a private parking spot - that the gate makes it private. That is bullshit and there is no law that specifies that a gate makes a parking space illegal. Read this law - S.B. No 52 and have your police do their job. I have been reporting this for five years now. I have this on video and shared this in a prior complaint. I am tired of the police not doing their job - this should have been a citation. A police officer is supposed to know the law and not let some smooth talking BS'ers convince her differently.

Officer [REDACTED] and her Supervisor did not ticket the vehicle in the handicapped that I have been reporting for days. I have been reporting illegal parking for about five years with no citations. She actually helped the illegal parker leave. Her Supervisor was in agreement. She was told by a bunch of kids and I was told by a 911 operator that a gate makes a property private. This is complete bullshit. The zoning dictates the usage of the property. This is mixed use meaning that this is not solely used or zoned for residential and therefore Texas SB52 law was violated. In my distress while Ms. [REDACTED] ganged up with the harassers who were even laughing at my suicide attempt to which Ms. [REDACTED] rolled her eyes as if I was dramatic. She further enabled the perpetrators to come out and gang up on me and laugh at me and threaten me. She even stated that she was approving a new restraining order even though this is public property and even though I never stepped foot

NOTICE OF COMPLAINT

on the public business residence. I would like to know why the police are violating the law and providing special assistance to Mr. [REDACTED] to violate the law and to further want to criminalize me. I am requesting a full copy of this report because I would like to know why the police are enabling and inciting more discord and conflict in this situation instead of properly doing their job.

Also, I would like to report Officer [REDACTED] and her Supervisor for Penal Code Chapter 22 Assaultive Offenses. I reported to the Officers that I attempted suicide because of the constant harassment and lack of police response to harassment, stalking, threats and legal harassment while my home has been devalued and I have been threatened to be thrown out of my home for about five years now. I was laughed at and I responded in a report that one citation would have saved me life. I fought not to commit suicide today as well and therefore I am reporting Officer [REDACTED] again. This is not a joke. This is my life and her ignorance does not leave this department without liability. I am also reporting her for the people laughing and telling me I was crazy and deserved to die - that I was a nut further provoking the trauma and the feeling of hopelessness and despair and bullying. Even to the point that in my despair and vulnerable state; while I was not protected, while she failed to do her job, she also laughed and stated that she was further aiding and abetting Mr. [REDACTED]. The Austin Police Department is accountability for assisting with my attempted suicide and is continuing to be accountable while no citation has been issued for 5 years with more than enough evidence. It is illegal to incite someone to commit suicide and this is the most serious offense and supporting people laughing and further wanting me to commit suicide is completely unacceptable. What should have happened is she should have ticketed the car and told the business owner that this was a mere traffic issue. She is an adult and she does not deserve a license to practice. She is completely incompetent. I would like a copy of this report. Again, this will be distributed to all parties. How have you allowed this to go on this long. I am requesting escalation to the very highest level because this has almost cost me my life and my Doctor stated that if this continues, and my progress continues to decline from this trauma, that he does not see a positive prognosis for me.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
