

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

July 29, 2022

ICMS #: 2022-0626

On July 28, 2022, the OPO received a phone complaint.

The complainant alleges: Officer [REDACTED] did not do an investigation at the scene of a 4 car accident where the complainant was cited for following too closely and causing the collision. The officer walked up to the driver of the white truck behind the complainant and the first thing he said was, "I kind of know what happened." The officer either told or led all 3 other drivers but not the complainant. He told another driver that the complainant was "trying to screw over the guy in the white truck;" and told the driver of the white truck, "I'm gonna cite him or else it'll be harder because I think he's going to try and go after your insurance," even the guy in the white truck admitted that he had hit the complainant. The only person cited in the 4 car accident was the complainant. The complainant wondered if the officer doesn't like Hispanics. The complainant has extensive proof that the accident wasn't his fault and the ticket was dismissed in court.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
