### NOTICE OF COMPLAINT

December 22, 2022

ICMS #: 2022-1151

On December 21, 2022, the OPO received an online complaint.

**The complainant alleges:** [REDACTED] - Arrest Report # Interviewed By: [REDACTED] health symptoms culminated in a situation with my mom where I grabbed her phone too vigorously which resulted in my arrest for domestic battery in the mental health docket. While discussing with my mom the situation, the police officer mentioned that she had the "option" to dismiss the charge despite absolute prosecutorial discretion in bringing changes. This false statement by police officers is police misconduct in my opinion. The charge was later dismissed by following all suggested treatment. The situation prevented me from getting the most effective mental health treatment since I spent the next 24 hrs in jail, was dropped from the schedule of a psychiatrist that I had scheduled weeks in advance after explaining the situation, only received free mental health treatment with a nurse practitioner instead of a doctor at a clinic after spending 24hrs in jail with the same symptoms, lost my job and as a result could not receive free therapy that was offered by employer.
