### NOTICE OF COMPLAINT

February 25, 2022

ICMS #: 2022-0116

On February 22, 2022 the OPO received an online complaint.

**The complainant alleges:** I was turning in the left lane off of [REDACTED] to head north bound on [REDACTED]. This area is often congested as many people are filing in on the onramp. There is minimal distance to maintain a "safe" distance but I tried my best. There was a white Hyundai SUV on the left side of the ramp NOT MOVING with his blinker on in a full stopped position waiting until it was safe to get onto the onramp. A black Dodge Charger officer BADGE # [REDACTED] slammed on his breaks abruptly so much so that my automatic ABS engaged and sent my stuff flying forward this was not a touch of the breaks this was a horrible miscalculation of how close he came to endangering me and my life. After the incident happened I quickly changed lanes as the cars started to speed up to get in front of him to exit off of [REDACTED]. I did not trust this man in front of me anymore I want to get in front of him to minimize any further incidents. He quickly turns on his lights in an UNMARKED POLICE CAR. He pulled me over on [REDACTED] because of my unsafe driving to get to my exit however, he had committed the same crime just moments ago when he slammed on his breaks to an unanticipated full stop in the middle of rolling traffic into an onramp. Was is actually defensive driving on his end? Absolutely not.
