

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

July 22, 2022

ICMS #: 2022-0599

On July 18, 2022, the OPO received an online complaint.

The complainant alleges: On [REDACTED], [REDACTED] was involved in auto incident where she was hit by a [REDACTED] 18 wheeler vehicle. Police officer, [REDACTED], wrote the report, and informed [REDACTED] Adverse information would be given in the Police Report. ([REDACTED]) Officer [REDACTED] did not include the Adverse drivers information in the police report hindering [REDACTED] pursuit in a claim against the company and driver for her injuries. The open records we received redacted the drivers information and insurance information. This information would have been available if Officer [REDACTED] wrote the report correctly. As of [REDACTED], [REDACTED] no amended report was made. The Adverse drivers information must be available since the records and videos were redacted. We would have this information in the police report if the report was amended. We demand someone contact is with this information with an updated police report.

The witness captured the incident on his vehicle dash cam and provided it. The 18 wheelers license plate number was not legible due to the lights on the highway. The video from the witness shows the incident and the open records confirms this is the same incident, truck, and driver of the 18 wheeler who caused the incident. We can see Officer [REDACTED] and other officers speaking with the driver of the 18 wheeler and obtaining his name and contact information in the open records videos.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
