### NOTICE OF COMPLAINT

December 2, 2022

ICMS #: 2022-1082

On November 29, 2022, the OPO received an online complaint.

**The complainant alleges:** case [REDACTED] was filed and on [REDACTED] i was a victim of a guy trying to shot me, he ended up shooting my brother in the head, my brother is now fighting for his life. on [REDACTED] morning [REDACTED] while my brother and i were walking out of [REDACTED] we were ambushed and shot or shot at by a cuban guy who had plotted to either steal our money or kill us. i forseen the attempt by way of observance between the suspects bc there was four of them the way the valet attendant allowed them to perpare for us and the manager allowing them to watch us the whole time without trying to intervene but hide them back in the club when officers arrived. when the incident happened i told the policemen all this and they didnt beleive me or try to investigate that portion. they chose to believe the manager and instead of checking the footage from the time of arrival from these guys and their actions , which would of showed everything i was talking about. the officers retained one suspect but later on releasing him even after i told them he was the one to give the shooter the gun. just because he gave them information on the suspect, they fill it was ok to release him. they still dont have any suspects, i have not seen any one charged for the attempt on me and only one guy was held accountable but he hasnt even been found. why would the polie let the only suspect go and why hasnt anyone been harged for the attempt on me, i was a victim and i was almost killed and no one has to pay? that is bullshit and as of [REDACTED] not 1 detective has returned my call or voicemail, while my brother fights for his life the management of [REDACTED] gets to live free and the suspects get to go on with their lives.
