

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

February 17, 2023

ICMS #: 2023-0138

On February 15, 2023, the OPO received an email complaint.

The complainant alleges: I have been subjected to a form of police harassment known as an Organized Stalk, propaganda system designed to be abusive to both a Stalk victim and the city population generally.

“Emergencies” are staged where I am such that when the general public of Austin see indications of an emergency in my presence the general public is deceived and I am ostracized by abusive and non cooperative treatment.

Organized Stalks are police harassment meant as part of COINTELPRO to destroy lives and both civilly (rental contracts for apartments, state issued IDs, etc.) and psychologically by abusive to the Targeted person, the person the police have singled out for clandestine abuse.

The clandestine abuse takes the form of backroom conversations, smear campaigns, influence efforts, use of the ability to pull strings or request favors, are plant evidence to be shown around in such a manner as to make life difficult for the person experiencing police abuse called Gang Stalk.

I believe this is because my family participated in Atomic Testing and other CIA activities during and following WWII and the CIA had access to DNA from our family ([REDACTED] above ground testing) and [REDACTED] of the Atomic Energy Commission, [REDACTED] and others were tied to the CIA's assassinations and biological weapons program [REDACTED] was involved in [REDACTED].

Many like him close to the [REDACTED] era officials are tied to the life of the [REDACTED] and I am the last living [REDACTED].

I am writing a book about the family role in the [REDACTED] assassinations and that the politicians who rose to power following that [REDACTED] had CIA ties to the events now being covered up.

While there are interesting aspects to my life such as ADHD and a non traditional path into white collar high tech, police harassment has for decades driving me out of homes jobs and

NOTICE OF COMPLAINT

I can show this is long term police harassment, and now I can show why as the truth of the [REDACTED] assassination and ties to atomic testing and biological weapons research is being declassified.

About [REDACTED] ago I also put in a report on this to Office of Professional Conduct FBI established after FBI DOJ roles in the [REDACTED] break-in under [REDACTED] and even earlier following [REDACTED] formal a CIA cabal that would assassinate [REDACTED] and end [REDACTED] steer away from CIA assassinations

The smear campaign is contradicted by who I am but the staged appearances of people around me acting out roles in particular of being victimized by me will create an image of me that will play to the fears of the very locations I need most such as housing, home office and library, gym, and social relationships.

I moved into an inexpensive living town along the Southern US border and inflammatory conduct and actions of that town's immigrant population created a tension between me and the blacks and hispanics of a skid row area making me seem a threat to low income housing.

Part of the tension arose from when they created the appearance I was a threat to children and they sued my trust fund as if I was and they had staged the appearance I was.

In the gym I needed to fight diabetes and have healthy relationships with other healthy people they put provocatively overly tight yoga pants females in front of me on machines, stair cases, and other locations and began smear campaign I had a buttocks fetish and would position myself in the gym accordingly.

In the library unlike grade-schools children and adults have full run of the library and it made to look like in libraries I am a threat to minors who are also in the library.

These smear campaigns are not the only abuse I have been subjected to.

As I have continued to use home office and library resources to write my book I have had break-ins, threats, distractions created, etc.,

OFFICE OF POLICE OVERSIGHT

NOTICE OF COMPLAINT

When I attempted to look for an apartment to lease or a home to buy while in Austin my motel doors were found ajar by me and meth paraphernalia was strewn outside in plain view of what also in plain view a motel room with my belongings in it.

This notice of complaint is a request for Internal Affairs to initiate an investigation to determine if the employee conduct is within compliance of APD policy, Civil Service Rules, and Municipal Civil Service Rules.
