Complaint Number: 2025-01565	Date of Complaint: 7/1/2025
Complainant's Name (if given):	Anonymous <input type="checkbox"/>
Nature or complaint: Improper Police Procedure	
Austin Police Officers Involved: David Driskill (AP8273)	Unknown: <input checked="" type="checkbox"/>
Complaint: The complainant alleges: The complainant works for [REDACTED] Towing. Officer D. Driskill pulled the complainants employee over for an inspection on his 18-wheeler. Officer Driskill spent over an hour on this inspection, which impacted the complainant's business by keeping the vehicle off the road for so long. The officer told the employee he thought he was a different driver with [REDACTED] towing and not [REDACTED] towing, which the complainant found odd. On the inspections, Officer Driskill wrote that all of the tires were leaking or underinflated on this brand new truck. He sited no safety chains, and found a small nail in one of the tires so he put the truck out of service. During the inspection, the officer was texting pictures to an employee at [REDACTED] towing, which the complainant believes was the man the officer mentioned at the beginning of the inspection. The complainant is concerned that this officer took his brand new vehicle out of service when the complainant believed it didn't need to be, and that the officer was communicating with a competitor towing company during the inspection.

Complainant's Name (if given):	Anonymous <input type="checkbox"/>
Nature of complaint: Discourtesy or Improper Conduct	
Austin Police Officers Involved:	Unknown: <input checked="" type="checkbox"/>
Complaint: The complainant alleges: On June 30 between 9:30 and 10 pm, my son and I were sitting on the benches on West and 2nd outside the Central Library. We were both looking at our devices, and suddenly an officer was coming at us with her gun drawn, yelling, "Put your hands up." She held the gun on my son as she approached and asked if he had a gun, or if we had any weapons, and then several officers arrived. She handcuffed him even though he was just sitting there looking at his tablet. They separated us and kept my son in handcuffs. I explained that he has anxiety which causes him to wear a dark smock and gloves, and they need to be careful when talking to him. They explained there was a report of someone with a mask in dark colors holding you hostage. I said, "we were both just sitting there." They asked for my son to take his smock off, and to show his ID. He exercised his right to refuse when they said he was not being accused of a crime. They patted him down and did not find a weapon and then they removed his handcuffs and explained there was a phone call claiming I was being held hostage at gunpoint by someone. They also said there was a previous complaint against someone with the same description acting erratically. I explained we were both just sitting there, and they let us go. This will all be seen on the Body Cam, if it was on. Since this was a false report, I would like this investigated, and charges against the person making a false claim against me and my son. The description given of him was precise, describing all of his clothing perfectly - if there was enough time to observe that, they should have been able to distinguish whether or not a gun was present. You can clearly see there is no gun. Having a gun held on us by the officer and my son in handcuffs was traumatizing, and I couldn't calm down enough to sleep. We are at our wit's end. I'm glad I was there because if my son had moved quickly, with the gun, it could have gone left. The officers explained they were just doing their job, but I think they behaved this way due to his appearance, and would not treat everyone this same way.

Nature or complaint: Bias Based Policing	
Austin Police Officers Involved: Askew, Sheldon AP4399	Unknown: <input type="checkbox"/>
The complainant alleges: <p>I am compelled to report serious misconduct by Assistant Chief Sheldon Askew, which threatens the integrity of our department. On multiple occasions, AC Askew has exhibited aggressive and unprofessional behavior, using intimidation and derogatory language toward several Commanders and Lieutenants. He has been very verbally abusive and routinely refers to Commander [REDACTED] as "porky the pig with no brain." Several of us believe he is sexist towards women due to the sexual undertones in his comments. Importantly, he referred to Lt. [REDACTED] as the laziest nigger in the department accusing him of sitting on his ass in RTCC all day. AC Askew made the statement what kind of man wants to leave IA to sit on his lazy black ass all day. There have been more unsettling comments made by Askew regarding City Manager [REDACTED], whom he refers to as a "ghetto fucking nigger." I personally overheard him refer to ACM [REDACTED] as "lil Mexico" as he joked with another of his buddy Lt's and said, if [REDACTED] wonders if he would get deported due to him looking like a "vatho" with all those tattoos. Askew has also given members of the media unauthorized sensitive information regarding APD records and CCH information on multiple occasions.</p> <p>Chief Lisa Davis, I am simply tired of the sexist and racist behavior lurking in this department and urge you to please do something about it. I love [REDACTED], but she has known about this behavior throughout her tenure as interim Chief to present day, but we surmise she is only concerned about maintaining her position and status within the organization to do anything about it.</p> <p>Evidence related to this complaint will be found on Askew's personal cell phone, text messages, computer and speaking with Commanders and Lt's about his sexist and racist behavior. No one will complain on their own due to the nature of his position. Given the gravity of these allegations, I urge an immediate investigation and I will be paying attention. I would hate to have to deliver a copy of this form and text message evidence to KXAN and KVUE. I'm not normally this way but I'm close to retirement and Im tired of seeing people treated like shit around here and it's been weighing heavy on my mind lately. We don't need another Chief [REDACTED] scandal here.</p>

The following complaint is an allegation; no final determination has been made.

Complaint Number: 2025-01634	Date of Complaint: 7/7/2025
Complainant's Name (if given):	Anonymous <input type="checkbox"/>
Nature of complaint: Improper Police Procedure	
Austin Police Officers Involved:	Unknown: <input checked="" type="checkbox"/>
Complaint: The complainant alleges: In March 2016, I was the victim of a wrongful arrest and excessive force by an Austin Police Department officer while actively seeking mental health care. I was suffering from complex PTSD (CPTSD) and dissociative identity disorder (DID) and had called 911 for help while in a suicidal state. Instead of receiving care, I was violently tackled unconscious, mocked by officers, arrested, and jailed naked overnight. --- Key Facts: Location of Incident: In front of Brackenridge Hospital (Red River St, Austin, TX) Timeframe: March 2016 (exact date unknown due to trauma and dissociation) Reason for Presence: I had voluntarily sought help at Brackenridge Psychiatric Unit after being emotionally abused by a downstairs neighbor and facing eviction. --- Context Leading to Incident: I was in crisis due to emotional abuse from a neighbor who repeatedly banged a golf club on the ceiling under my bed while I slept. The abuse led to dissociative episodes, including waking up miles from home without memory of leaving.	

OFFICE OF POLICE OVERSIGHT

I had recently begun work as a special education teaching assistant at Austin High and had adopted a Carolina Dog, both of which were at risk if I became homeless.

I contacted Austin-Travis County Integral Care (ATCIC) and requested hospitalization due to suicidal thoughts.

I was dropped off at Brackenridge Psychiatric Unit, but while in the waiting area, I hit my head on a wall in distress.

Two security guards physically kicked me out of the hospital rather than admit me.

The Arrest:

Still suicidal and needing help, I stood on the sidewalk outside Brackenridge Hospital and called 911 again asking for medical assistance.

EMS ambulance arrived.

As I approached the ambulance (within one foot), a police officer tackled me from behind without warning.

I was knocked unconscious and woke up handcuffed in the back of a police car.

Officers laughed at dashcam footage of the tackle, mocking me while I was in the car.

I was charged with "abuse of 911" and jailed.

Due to my suicidal state, I was stripped and held naked overnight in jail.

Diagnosis & Impact:

Diagnosed with Complex PTSD (CPTSD) and Dissociative Identity Disorder (DID)

I was denied the mental health treatment I had voluntarily sought.

I experienced severe trauma, humiliation, and retraumatization due to the physical violence, public stripping, and mocking by officers.

I still carry psychological scars from this event.

OFFICE OF POLICE OVERSIGHT

Records Requested:

I am now seeking full transparency and accountability by requesting:

Police arrest report

EMS and dispatch call logs

Bodycam and dashcam footage from all officers involved

Hospital incident reports

Jail intake and suicide watch documentation

Legal and Public Intent:

I intend to file a civil rights lawsuit for unlawful arrest and excessive force.

I also intend to make this case public, regardless of legal outcome.

I want everyone involved — including the officers, hospital staff, and EMS personnel — to be publicly known and held accountable.

Complaint: The complainant alleges: She called APD because of a domestic violence incident that occurred. Ofcr. Cedillo AP9161 and Ofcr. Ngyen AP8579 arrived. Before speaking to the complainant's husband Officer Cedillo told the complainant that he "knew all about this, my wife is currently putting me through this." This led the complainant to believe she was not going to be supported by APD. After speaking with the husband and the complainant's daughter, he told the complainant that this was just a scuffle, and told her she could call them back if she wanted to, but implied that she should not call because CPS would get involved and it could cause trouble for her with her divorce. Officer Cedillo almost left without getting the complainant's name or date of birth which the complainant felt was another example of his disinterest in her side of the story. The complainant feels like he came in with a bias and treated her differently because of his personal experience which he disclosed upon arrival.

Austin Police Officers Involved: Det. Wesley DeVries	Unknown: <input checked="" type="checkbox"/>
Complaint: The complainant alleges: I am filing a formal complaint against Detective Wesley DeVries of the Austin Police Department regarding discriminatory treatment I experienced during the handling of APD Case #25-9008749. I am a disabled graduate student who, for medical and accessibility reasons, is unable to reliably communicate by phone. I clearly communicated this need and consistently asked to correspond via email—both as a documented accommodation and to ensure clarity, accuracy, and personal safety. Despite this, Detective DeVries repeatedly pressured me to call him, ignoring my stated communication limitations. Most concerning, in the official police report, he stated: “OF NOTE—IT APPEARS THAT THE COMPLAINANT REFUSES TO SPEAK ON THE PHONE TO ME. IF THIS CONTINUES IN THE FUTURE IT SHOULD BE NOTED AS A POSSIBLE REASON FOR SUSPENSION.” This note implies that my disability-related communication boundary was being used to discredit me and potentially justify closing or deprioritizing my case. This is not only inappropriate but reflects a discriminatory bias against disabled individuals—penalizing me for using a legally protected form of accommodation. No one should be threatened with case dismissal or diminished police services for requiring accessible communication methods. My request to communicate by email was reasonable, respectful, and fully aligned with my documented medical needs. Treating this boundary as non-cooperative or obstructive is discriminatory and dismissive of my rights under the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act. Additionally, I believe that Detective DeVries accepted the suspect’s framing of events with little effort to gather my evidence or consider my safety concerns seriously—potentially due to this bias. That adds to the harm caused. I am requesting a formal review of this officer’s conduct and a clear response on how APD will address discriminatory treatment of disabled complainants in the future.

Complaint: The complainant alleges: On Sunday, July 6, 2025 I was stopped on Sixth Street before Congress Ave by Officer Zarling who did not allow me to move out of the flow traffic. He asked for my license and insurance and when I proceeded to get my insurance he said don't move. He asked if there was anything in my car that could hurt him. I told him I was trying to comply with his directive. I provided my drivers license and gun license. He asked if my gun was in the car and I said no. He asked if the gun would have been in the car where it would be. He said he stopped me for failing to have a front plate. This officer gave me the impression that his fear could have caused him to shoot me. He gave me a warning ticket but I felt the encounter could've caused me my life. I don't know whether being Black caused his disrespect or inexperience. I have never filed a complaint before but this encounter was reminiscent of the 1920's. Complaint: The complainant alleges: She lives in Austin and was being assaulted by her roommate late at night and into the early morning. She called her mother for help, but as the argument escalated, her roommate threw her phone. Her mother, who lives out of town, tried to call 911 in Austin and was unable to reach anyone for emergency services at that early morning hour. The complainant tried calling 911 twice. On the second call, and after being on the phone with dispatch for around 13 minutes screaming for help, officers arrived. It took around 45 minutes from the first call until an officer arrived. Both the complainant and her mother are concerned about the amount of time it took for officers to get dispatched and respond to her emergency, and how difficult it is for someone who is out of town to reach 911 for emergency services outside of regular office hours.

Prior to this, she used large amounts of leave in months prior to a medical emergency in September 2024. In January 2025, she was unable to return to work but began attending Orange Theory multiple times a week. As of July 10, 2025, she's asking for donated leave for a third time. Prior to her medical leave in September 2024, Detective Villarreal was limited on her ability to aid her assigned investigative unit and on/off full duty status, working only 15 full weeks (1 of which was in San Diego, and another was riding out with the LTS unit) of work from January 2023-September 2024. Please note, Detective Villarreal got to the Sex Crimes unit in June 2022. Since she returned from medical leave, Detective Villarreal has repeatedly informed other detectives (by mouth and writing) that she does not wish to return to the sex crimes unit, claiming she has put in her 2 year commitment. The sex crimes unit has been forced to hold a vacancy that they are unable to fill as a result of this. Detectives are seeking some resolve to this. She has communicated to the chain and other detectives since January 2025 that she doesn't want to return to the Sex Crimes Unit, yet she has made no effort to find a new unit/home, despite vacancies being open with all the movement within the department. One photo has been attached from one of her two trips to Miami, but there are many more that she had posted on Instagram and shared with others (from her Orange Theory workouts to her riding a four wheeler while on donated leave, as she was unable to return to work).

However neither have bothered to respond to my emails or return any calls. While I understand police officers are busy the lack of communication is unprofessional. I haven't even received a "we're looking into it" or "it will take us some time but we will get back to you". The evidence I have to amend my case puts the other driver at fault and shows they lied at the scene to avoid punishment, I simply want my case amended and the lack of response from the Deputy & Sargeant makes me lose faith in the Austin Police Department.

Complaint: The complainant alleges: I just got in an accident (You have to understand that there are a bunch retarded bitches that be hacking my phones and talking bullshit, as was the case when I called, telling me some bullshit that they cannot access liability, I didn't ask this dumb bitch that shit, similar to your retarded Asian cop talking bullshit that I cannot press charges on the other guy, who was harassing me in his efforts to deter me from providing that correct information on the matter. All this after I had gone to Home Depot, who has been a repeated harassment offender, since I came here to your City. Excuse me, if I'm wrong but when guy get hacked and your phone intercepted so often, AND YOU, AGAIN, YOU, do nothing that's all that's on my mind with the perpetrators running free from litigation, criminal, while O have to call important calls while these dumb bitches do this shit.) and called 911, and this girl tells me nonsense about liability as if I asked her that, and does not state the location of the accident on the call, when they are supposed to do so. This was after this man called me an idiot several times after he was at fault, as I was already in the round a bout before him, as I hadn't even seen him until impact, and he must have turned after I was already in the roundabout before him. So, your officers come in and THEY ARE ALREADY AGAINST ME, as you all are. THEY immediately came in as if they were around the corner waiting the nonsense that occurs in your piece of shit city. They have us park in the storage facility, and then the Asian Officer comes to me and asks me what happened, and he eventually does all in his power to keep it a civil dispute when I told him that the man harassed me (He, "with" the "intent to harass" me, initiated "communication" with "a comment...that is obscene," as prescribed by Texas Penal Code 42.07. AND YOUR OFFICER ASSURES TO SAY THAT IT HAS TO INDICATE A THREAT, false, AND THAT IT IS SUPPOSED TO OCCUR OVER A PERIOD OF TIME, he threw that word around a number of time ro intimidate me into taking fault, which is also a violation Texas Penal Code 36.06, although he wasn't trying physically harm me, he was trying to instill psychological distress, which is still harm. All matters that YOUR POLICE decided to not take into consideration, although factual in nature.) and wanted to press charges ans he refused to do so and ONLY wanted to entertain the accident matter. He then tried to force me to communicate with this man, as if he was playing thw role of a mediator paid by this individual, and I asked that he stay away from me, where he, not the cop, was very shaky, and this was after he had a conversation with the other cop, who looked Hispanic. After all information was exchanged the officer came to me and

refused again to take criminal charges, and was doing all in his power to evade this civil right of mine, and then the other officer comes and grabs his phone, shows the officer something on the phone (After this entire incident, I'm very skeptical that it was the map view of the roundabout.), and starts to state that this and that about the matters and that this person should have gone here and there, WHEN I TOLD THAT THEY ARE NOT SUPPOSED TO ACCESS LIABILITY, which could be an illegal investment to INTIMIDATE ME to copping out! So, I then asked for their badge numbers and proceeded to leave as they communicated amongst each other, THE TWO COPS AND THE OTHER PERSON FROM THE ACCIDENT. I drove away to the three of them communicating. These police officers should have gone about their business.

The second officer seemed to be a darker skinned Hispanic or Native (Last Name Alaniz, Badge 8875).

Complaint: The complainant alleges: What the report failed to say is that he got into his truck left and turned around and came back. The truck turned into his weapon. I did unzip my bag when he turned around but he never seen me do that. We had the words and I did get allitle irritated cause he was in his truck explaining something i did not give a shit about. Again he invaded my space. I stepped forward with a hard left step and asked "you know what's about to happen right now"? He leaves and does not answer my question and I felt neurosis as he left. In my opinion, the cops didn't have to arrest me. I would have reached in the bag and handed it to them. Why are yall so scared? I did no wrong Listen to how stupid people use the police to get people fucked off. Im also trying to bring up a complaint against the officers during the incident on July 30th, 2024 approximately 10 am at the parking lot off Azie Morton drive . The victim called the police on me cause I asked him a question. I asked him " you know what's about to happen right now right ? Then I looked down at my bag that was carrying my moms unregulated PCP pistol. Then looj at him, then he leaves and I felt his anxiety. I never touched the pistol and my intent was to provoke a fight, because he was parked in the handicap spot illegally looking in people's vehicles. The officers illegally searched my bag, when they detained me for the false accusation. He never bothered to get my current address and threatened me with the threat charge of the victim wanted to pursue charges against me. Andnow I want to pursue charges for falsification of a police report with his lies. Im currently waiting for any information I can get with that case because I forgot to get the case number b4 they left on that day. That was an assanantion attempt on my life! I talked to the Lakeway police at 3 :13 pm then again at 4:06. I told him everything at 3:14 about what was going on and that I would like to start a report for Mr. Benitez for theft of services , due to the fact that he was telling me everyday that he was going to pay me. I got Benitez to call the officer in Lakeway, then he called again at 4:06 to comfirm a peaceful solution. I told him I was not gonna hurt anyone and that 8 was just talking shit. At 7:06 the APD pull up at the 12707 N Mopac Expy, Austin, TX, US. The main officer went and took the firearm from the dumb ass pointing it at me for no reason! Case #25-1630991

Complaint: The complainant alleges: I want to complain about the Dectives that been on my case. I put in a sexual assault police report. On 9 -23-23. That was the first complaint I put in. I put in multiple police reports after that. They all been against the same guy . Ranging from sexual assault, stalking, breaking a entry. The police report are from 9-23-23 to April 2025 . I do not remember all the Dectives working on my case. The only ones I can remember are Lauren Villarreal , Yager Christopher. There were two more Dectives, but I don't remember there names. I putting in a complaint against these dectives because I don't feel they did everything to protect me. This guy who been after me . Been stalking me for a while. For the past 2 years. All my police report I've put against him have been dismissed. The dectives never tell me his name. So I not able to know who the attacker is. And because they don't give me his name and birthdate I can't put in a proactive order. They give me a temporary proctive order for me. Even though there is history of many police reports I did against this guy. They never arrest him . There were evidence from rape kits I was told. But there still was no arrest. Because the guy I reported. Has not been arrested. Has continued to sexual assault me and stalk me. I feel they don't want to protect me from this guy, that I've been reporting is because I am a black female. I feel it is a race thing. Because there were evidence to press charges against the attacker. Nothing was never charged. I also feel because the guy who I reported rapped me is a different race then me. And that's why they did not want to give me his name or information. Tell Us About Any Witnesses [REDACTED] She is my caseworker. I came crying to her letting her know that I've been stalked. And the same person rapped. She talked to dectives yager. Demographic Information Female, Black, Afro-Caribbean, or African American 78701

Austin Police Officers Involved: James Mckinney (AP10035)	Unknown: <input type="checkbox"/>
Complaint: The complainant alleges: To the Office of Internal Affairs, Austin Police Department Dear Oversight Officials, My name is [REDACTED]. I am formally filing this complaint regarding a deeply disturbing incident on April 26, 2025, involving Officer McKinney #10035 and three additional responding officers from the Austin Police Department. This complaint includes but is not limited to: <ul style="list-style-type: none">• False arrest based on biased and incomplete investigation• Suppression or failure to provide body camera footage• Complete disregard for my visible neck injury (see attached image)• Pressure tactics likely used on my wife, who recanted the next day and later signed a notarized affidavit of non-prosecution• Emotional and psychological trauma I suffered as a result of being falsely detained, placed on GPS ankle monitoring, and accused under fabricated or exaggerated claims• Blatant misconduct and dereliction of duty by Officer McKinney and his team	
Overview of What Happened: <ul style="list-style-type: none">• On April 26, 2025, at approximately 5:15 PM, I was arrested by Officer McKinney after what can only be described as a rushed, one-sided, and incomplete investigation.• Despite me having visible injuries on my neck (attached), no officer documented, photographed, or acknowledged them.• The arrest affidavit was written in a heavily biased tone, falsely portraying me as the aggressor, while ignoring or omitting critical context, physical injuries I sustained, and video evidence that should exist.• No bodycam footage was included in discovery, nor have I received any explanation as to why.• The following day, my wife verbally recanted her original statement, expressing regret that she felt overwhelmed and pressured in the moment. That alone raises serious concern over the	

OFFICE OF POLICE OVERSIGHT

integrity of the initial statements collected at the scene.

The City of Austin is committed to compliance with the American Disabilities Act.

Reasonable modifications and equal access to communications will be provided upon request.

- Weeks later, she filed a notarized affidavit of non-prosecution. It was ignored.
- Despite these facts, I was forced into a humiliating legal process that dragged for months before the State finally dismissed the case entirely on July 14, 2025.

Attached Evidence:

- Affidavit of Non-Prosecution (Signed, Notarized)
- Dismissal Motion signed by the Judge
- Photo of my injury taken April 28th, 2025 (clearly visible neck scratch)
- Original Arrest Affidavit authored by Officer McKinney
- EPO filed without merit based on one-sided narrative

Serious Red Flags:

- If bodycam footage exists, why was it never produced?
- If it doesn't exist, why weren't officers wearing bodycams while responding to a "disturbance urgent" call involving alleged domestic violence?
- Why was no mention made of my injuries when I was clearly harmed during the altercation?
- Why was my wife's next-day recantation ignored, and why did this continue despite her signed legal request to drop charges?

Request for Action:

I am respectfully demanding the following:

1. Immediate review of all available body camera footage for April 26th, 2025, between 5:00 PM and 6:30 PM, around [REDACTED]
2. Internal investigation into Officer McKinney #10035 and each officer on the scene for misconduct, failure to document critical facts, and false narrative-building.
3. Disciplinary action, up to and including termination, for all officers who violated departmental policy and civil rights protocol.
4. A written apology and explanation as to why this happened, and how the department will ensure it never happens again.
5. Public transparency from the department and APD Internal Affairs regarding mishandled domestic disturbance investigations like this.

This complaint is submitted in pursuit of justice — not revenge — and to prevent this from happening to another innocent person. I trust your office will treat this with the seriousness it deserves.

Thank you for your time and attention. I am available for interview or testimony at any time.

Respectfully,

Than after he left, I highly extremely believe that he was involved in an on calling shooting within the Saint Johns West Complex. I have a very detailed recording of it, that was shared to Officer Weatherford, and as well the sergeant detective that was working from June 26th to June 27th. Nature or complaint: Excessive Force	
Austin Police Officers Involved: 7093 - Paredes, Matthew Unknown: <input type="checkbox"/>	
The complainant alleges: To Whom It May Concern, I am writing to formally file a complaint regarding the violent and unjust treatment I, [REDACTED] received by officer AP7093 - PAREDES, MATTHEW of the Austin Police Department on the morning of June 4th, 2025. What began as a regular morning run for myself ended in a traumatic and dangerous life experience due to what I believe was the use of excessive force, a gross mishandling of my medical condition, and a lack of transparency and accountability from the agencies involved. At approximately 5:16 AM, I was running along the service road of W US 290, something I have done for years without incident. There was no traffic around as I ran with music in my earbuds. Moments later, emergency lights from a vehicle suddenly appeared from the turn around I was approaching. I was unaware of any danger or need	

OFFICE OF POLICE OVERSIGHT

to stop, I continued along my run as the vehicle sped around me on the service road. Without warning, I was violently tackled from behind from a person that I later realized was a police officer. I had no opportunity to stop, freeze, or comply. During the takedown, my earbuds were knocked out, and only then did I hear the officer shout, "Stop or I'll tase you." But by then, I had already been tased. When I attempted to get up, disoriented and in pain, I was tased a second time.

When I regained consciousness, I found myself on the ground, my head having struck the curb. I remember pleading to be taken to [REDACTED] [REDACTED] the nearest hospital literally yards away from the assault. Instead, I was taken to St. David's, where a CT scan was performed without my consent. I was treated like a criminal, prejudged on arrival and despite clear signs of a concussion, I was discharged with a diagnosis of only a "scalp bruise" and immediately transferred to jail, though I could barely stand.

I was charged with "evading on foot" and held for nearly 22 hours. My head continually bled through most of the day, and I was unable to eat or drink from the severity of my symptoms. The nurse was rude and unconcerned with my well-being. Though I was told by an officer that the charges had been dropped, the police report was not filed until two days later. When I was finally released—dazed, post-concussion, dehydrated, and alone—I had no memory of how to operate my phone to

OFFICE OF POLICE OVERSIGHT

which I was also unable to contact family due to the jail only allowing local calls. I made a dangerous decision due to my concussion and high stress level to walk home which was 15 miles. My family rushed to the jail upon learning I had been released, only to be told by staff that I was not there and there was "nothing we can do to help locate".

They only discovered I had made it home when our Ring doorbell camera alerted. When they found me, I was vomiting, disoriented, and emotionally shattered. My son called 911 immediately. At [REDACTED] [REDACTED] where I had originally requested care—I was diagnosed with a

[REDACTED]
[REDACTED]
What happened to me was not just a mistake—it was a systemic failure. At every critical moment—when I was tackled without warning, denied appropriate medical care, and released without support—I was failed by those sworn to protect and serve.

I have submitted requests under the city's Public Records Dept. for bodycam footage, dashcam footage, and the formal police report. I was informed by the Public Records Dept. that these records could not be released due to an ongoing investigation by the APD and that the matter has now been referred to the Austin District Attorney's office. However, I have not been notified of any of this information or given

OFFICE OF POLICE OVERSIGHT

clear information about the nature of this investigation or whether charges have been filed—against the officer involved.

I am requesting the following:

09/10/2025 04:04 PM

A formal investigation into the officer's use of force and the failure to identify themselves prior to physical engagement.

An explanation for the decision to transport myself to a hospital I did not request, where I received substandard care.

A review of the handling of my release, including why no measures were taken to ensure I was safely reunited with my family given my head trauma.

Immediate access to the relevant bodycam and dashcam footage, and a full copy of the police report and medical assessments while in custody.

This letter is not just a demand for answers—it is a call for accountability, transparency, and human decency.

Sincerely,

Nature or complaint: Improper Police Procedure	
Austin Police Officers Involved:	Unknown: <input checked="" type="checkbox"/>
Complaint: The complainant alleges: 23-0790390 I experienced a violent assault on November 5, 2023. I was held at gunpoint and was traumatized. This resulted in me having to get an emergency surgery to remove a hematoma to my chest and a blood transfusion. I worked up the courage to contact the police in April. The police dismissed me, accused me of being on drugs, did not investigate my complaint, and implied that I am not mentally well. I would like to find out the officers who displayed this negligence. I tried providing details about this and even said are you going to write this down? They truly just did not care. When I'm in contact with a real person I have my medical records showing the surgery as well as pictures of my injuries. My therapist can also verify the psychological impact it had on me when I finally felt the courage to speak up and was completely silenced by these officers who did not even attempt to do their job. Officer Description: Physical description: 2 officers. I remember the short one with black hair. Race: Latino or Hispanic American Gender: Male

Complaint: The complainant alleges: He saw a Police unit #1411 driving and dragging something behind it. He attempted to alert the officer. The officer's response was "That sounds about right for this department". The complainant is concerned about the "i don't care attitude" this officer had about the equipment they're being issued by Austin tax payers. He thought that was a bad response and was indicative of the quality of Police officers we have out on the street.

Complaint: The complainant alleges: I was pulled over yesterday evening around 10pm in south Austin. I was driving south bound on Manchaca rd going towards Dittmar rd. APD decides to pull me over for expired registration. My registration is good till 07/25. He tells me it expires 7 days in the month of July. It is a new law. I really don't believe that is true and I was being harassed for whatever reason. APD should not being pulling me or anybody else over for nonsense and should be better trained at public service rather than harassment.

Complaint: The complainant alleges: He was driving down South First early in the morning. Someone had thrown a pedestal from a sign in the street. He swerved trying to miss it, and got a flat tire. He got pulled over and there were 5 cop cars. One of the officers starts questioning him and inferring he had been drinking. The complainant stated he had not been drinking. The complainant was glad there were other officers there, because one of them identified that it looked like he had pretty bad arthritis in his knee, which he stated he did. The original officer insisted on doing a sobriety test, and told the complainant to stand on that same leg- which he had just said he had arthritis in- and the complainant refused. The officer then cursed at the complainant and told him he was going to impound his vehicle and to get his stuff out of his car. He had his dog in the car and the dog got out and ended up running down South 1st and eventually passing away because of this. He is concerned about the officer being rude, his car getting impounded and his dog dying all because he got a flat tire.

Complaint: The complainant alleges: Formal Complaint: Austin Police Department Negligence - July 20, 2025 Case Number: 252011226 On July 20th, 2025—the five-year anniversary of my mother’s murder—I was violently targeted in the parking lot of Pluckers in Austin, TX. A man began attacking my car with extreme aggression while I was still in it. He: - Punched my car windshield and side windows over 15-20 times - Broke my side mirror - Cracked my windshield - Slashed my tire - Kicked in my bumper - Tried opening my car doors to get into my car - Then went on to break another couple’s mirror and steal a toolbox from someone else’s truck Multiple people witnessed this—including a couple who stayed with me, followed the suspect, and even recorded videos of the incident, the other couple only started the video after he attacked my vehicle, which I have submitted as evidence under this case number. Timeline of 911 Failures: • 7:37 PM - I made my first 911 call. The dispatcher was dismissive and rude, asking me the same question repeatedly: “Is the man still there?” I told her, “I’m alone, I’m scared, I’m in my car. I don’t know where he is anymore.” • She assured me someone would be sent. No one came. • 7:51 PM - I called 911 a second time. Still, no one was dispatched. I was told again that they had “no one available.” • Another couple who witnessed the crime also called 911, stating that a woman had been attacked and that the suspect was still nearby. They had video evidence and provided a live location. Still, no police response. • 8:49 PM - I finally received a call back from an officer. That’s 1 hour and 12 minutes after my original emergency call.	

OFFICE OF POLICE OVERSIGHT

What One Officer Did Right

The officer who called me at 8:49 PM, immediately after starting his shift, was very kind, helpful, and understanding. He took the time to listen, took my report seriously, and made me feel seen and supported. He took action—unlike the officers before him or the 911 operators who dismissed me, ignored repeated emergency calls, and did absolutely nothing for over an hour.

His professionalism and empathy were the only signs of protection I experienced that entire night.

Why This Matters

Let me be very clear:

- This was a violent crime in progress.
- There were multiple 911 calls from witnesses.
- Multiple victims.
- Video evidence.
- And still: No police came until after shift change.

The 911 operator I spoke to was unprofessional, unsupportive, and refused to take action. When I called a third time, she even said:

“I’m not dealing with this,” and then she hung up on me.

This is not protecting the public. This is abandoning victims.

My History with APD Makes This Even Worse

This exact date, five years ago—July 20th, 2020—my mother was murdered. The man who killed her had been reported earlier in the day for carrying a weapon and threatening people, and APD never responded to the warning call. He murdered her later that same night.

And here I was, five years later, calling 911 again in terror—begging for help—and no one showed up.

This is not okay. This is not what public safety looks like. This is why people die. Submitted Evidence:

- Case Number: 252011226
- Video Files: Uploaded via official APD link provided by the responding officer

I’m formally requesting this complaint be reviewed by the Office of Police Oversight, and I am willing to cooperate with any internal review. However, I am also prepared to take this public if nothing is done. People need to know how APD and Austin 911 treat victims.

Complaint: The complainant alleges: Hello, My name is [REDACTED], and I was involved in an incident on June 21, 2025 (Case #251721010, during which I was assaulted by an individual who also struck my vehicle and fled the scene. Detective Ramiro (CC'd on this email) recently contacted me with an update, stating that I was at fault — both for the alleged assault and for striking the other party's vehicle. I respectfully disagree with that conclusion. I have full dashcam footage clearly showing the other individual turning his vehicle around to confront me while I was parked and waiting for my fiancée to get off work. The video shows him aggressively pulling up beside me in a very tight space, which left me feeling cornered and threatened. I had been parked for 26 seconds — as captured on the footage — when he suddenly returned. I believe this was retaliation because I had previously made a rude gesture (from within my vehicle), though not in a confrontational way. You'll see the full context in the video and my report. What followed happened quickly: the individual pulled up beside me, stared me down while holding what appeared to be pepper spray, and I felt an immediate and intense fear for my safety. I did get verbally defensive, saying things like "you're a bitch" and "get out of your car," but my feet never touched the ground — I did not get out of my vehicle. I was responding from a place of fear and instinct, not aggression. Detective Ramiro stated that I exited my car, but again, this did not happen. I'm confident the dashcam footage will make that clear. This incident has had a significant emotional impact on me. I suffer from PTSD due to my past work in a jail, and I am currently seeing a therapist to help process the trauma and anxiety this situation has caused. Between the sudden aggression I experienced and the way the investigation has unfolded, I've felt overwhelmed, dismissed, and emotionally drained. All I am asking for is a second, objective review of this case by someone at a higher level. I am more than willing to share all footage, documentation, and my original report.	

OFFICE OF POLICE OVERSIGHT

If I am in the wrong, I will accept that outcome. But based on the facts and evidence I have, I strongly believe I am not — and I want to be sure this case receives the seriousness and impartiality it deserves.

Complaint: The complainant alleges: To Whom It May Concern, I am writing to formally file a complaint regarding a matter that has significantly affected my safety, mental health, and civil liberties. Despite repeated attempts to report these issues to various departments within the Austin Police Department over the past two years, I have not received any formal response or assistance. Overview: In July 2022, while residing at [REDACTED], I began experiencing what I believe to be unlawful surveillance, mental interference, and targeted communication from individuals not physically present. These symptoms escalated over time and have deeply disrupted my ability to function. In June 2023, while at Recovery Unplugged, I was approached by two individuals---Lawrence Nicoletti and Josh Brown-who identified themselves as part of a federal task force. They left their business cards and later met with me regarding my alleged past involvement in money laundering. I was not charged with any crime but was asked to sign a document agreeing not to engage in that activity for one year. I signed this document twice, once at my residence and again at my workplace (Goodwill) in late 2023. Despite my cooperation, I continued to experience persistent and worsening interference, which made it increasingly difficult for me to maintain employment or stability. I believe I have been unlawfully monitored, harassed, and retaliated against in several workplaces, including: • Goodwill (Oct 2023 - Mar 2024): Repeated, unexplained disciplinary actions, intentional interference from coworkers, and theft of my passport and birth certificate from a locked locker. • StaffZone (June 2024): Suspended and removed from a site without cause. This occurred during homelessness and led to two hospitalizations for suicidal thoughts. I was referred to Integral Care and admitted to Cross Creek. • Wyndham Destinations (Oct 2024 - Feb 2025): Sudden, unexplained role change offer followed by apparent retaliation. • Pluckers (Early 2025): Missing paychecks and termination over an allegation I firmly

deny and believe was fabricated.

Reported Individuals:

I believe the following individuals may be involved in orchestrating or perpetuating this ongoing interference, either directly or indirectly:

- [REDACTED]

My Reporting Attempts:

- I spoke with Detective Vick, who told me to follow up if the situation continued. I did.
- I left multiple voicemails for Detective Rangel and others in the department.
- I filed at least one formal complaint.
- My aunt, [REDACTED], also reached out on my behalf.
- I followed up with over 20 phone calls and messages throughout 2023 and 2024-all without receiving a single formal response or update.

Current Impact:

I continue to experience what I believe to be mental interference, targeted social disruption, and unjust professional retaliation. I fear that a group or system may still be unlawfully connected to or monitoring my brain, affecting my communication and emotional well-being.

What I Am Requesting:

1. A formal investigation into the actions of all individuals and agencies mentioned above.
2. Confirmation and clarification regarding the identities and roles of Lawrence Nicoletti and Josh Brown and their reported affiliation with federal law enforcement.
3. Investigation into the possible theft of my passport and birth certificate from Goodwill.
4. A review of all voicemails, complaints, and communications I've submitted.
5. A response explaining why I have not received contact or follow-up from APO.
6. Any appropriate civil rights protections or referrals to federal agencies for further investigation.

This matter is urgent. I am struggling daily, and I believe I have been targeted without due process or oversight. I am asking for immediate attention and a written response confirming that my complaint is being reviewed.

Thank you for your time.

Complaint: The complainant alleges: I called the 911 after being in a vehicle wreck because the other party didn't want to be civil and was escalating tensions. She called me "nigger" twice and her son who has down syndrome approached me as if he wanted to do me harm; so I decided to just wait for a third party arbitrator to come. Upon the arrival of officer Hines, his only concern was the firearms I was legally allowed to own. I asked him if he was "fishing" and looking for a reason to arrest me or could we get back to why I called them: the car wreck. His sole focus was my firearms and me proving I could own them. They allowed the other driver to drive off without incident. I wanted to then leave since they weren't going to help me. I requested my firearms back so I could leave. They refused. They wanted me to show proof that I was legally allowed to possess these firearms and wanted to get into an argument over the legal designation of the firearms. I told them to keep the guns and I'll get them later once I find the proof but I'm leaving. He then stated that he didn't have a reason to keep my guns. If he didn't have a reason to keep my guns then he didn't have a reason to make me jump through hoops. I called for help and then help was refused and instead I was treated like a violent criminal instead of a human. When I asked for his name and badge number, he kept doing things to prevent me from document it in a manner where I knew o could accurately retain it- such as taking a photo of his badge number and name. He turned on his shoulder worn light and kept it on when I told him my camera wouldn't pic up his name and he kept turning in a fashion for me not to get a good picture of his identifiers. He was unprofessional and overall hostile from the jump. I wanted him there and he was treating me as an adversary. Officer description: Name: Hines Physical description: Light brown hair, 180lbs, 5'8", no facial hair, unknown on tattoos or scars. Race: White or Euro American Gender: Male Badge number: 9316 (?) Complaint: The complainant alleges: There was a 911 call to her house and the police came. No one from her house called 911. She told the officer that they might have the wrong address, and they said they'd check. They went to check and when they came back they said they had another call come in that was coming from her house. She asked how the call came through, and thought maybe someone gave the wrong address again. The officer said the call was a pocket dial and showed on a map it was coming from her house. Soon after the officer left the second time, there were two requests for someone to connect to her tv remotely which she thought was strange. She called the police station this morning trying to get to the bottom of it. They said there was only one call, and that the caller did call and give her address which is different from what the officer, Steve Sumba, told her the night before. She wants to talk to someone to find out exactly what happened. Police Report #25-2091417

Austin Police Officers Involved: Childress AP7765, Castillo AP5617, Collins AP7245	Unknown: <input type="checkbox"/>
Complaint: <p>Complainant stated he called police because a passenger in a vehicle he was operating was causing a disturbance. He stated police arrived and talked to him and the passenger and police initially let him leave in the vehicle. He stated officers stopped him again a few blocks away and told him the car was reported stolen. He stated he told the officers he had permission to have the car and showed them proof, but they arrest him anyway. He stated he was taken to jail, and officers said he would get his property back when he was released. He stated after release the next day, he went to APD's Property Unit and was told there was no property there belonging to him. He stated officers lost or kept his property from him. Complainant stated later the same day, while sleeping on the sidewalk near the jail an unknown white male officer kicked him and an unknown female officer hit him on his shoulder, injuring his shoulder, as he laid on the sidewalk. He stated they said he needed to leave from that location or he would go to jail. He was unsure if it was APD officers, Sheriff Deputies, or jail personnel, but he stated because they said they were going to arrest him he believed they were APD</p>

Nature of complaint: Excessive Force	
Austin Police Officers Involved:	Unknown: <input checked="" type="checkbox"/>
Complaint: The complainant alleges: On 7/20/2025 my husband and I were inside our home when Austin pd arrived aggressively opening the door to our front entrance, screaming and yelling orders like if a crime was being committed. The had no search warrant , and I never gave them access to enter, they took it upon themselves to enter and search. I told both officers that arrived that my husband [REDACTED] did not understand English whatsoever due to his nationality. I still overheard a few words being told to him in English, when I tried translating, the officer said that he knew Spanish and that he was able to translate. I still kept on hearing my husband say (no entiendo/ablo ingles) meaning he didn't speak or understood what the officer was trying to tell him. Again, I heard him say the same comment to the officer and when I looked over my shoulder to translate and told him to just do what he was asked to do that officers were only doing their job and conducting a regular check for a phone call they got, I got tassed by the female officer. I had no handcuffs on, I was not being a danger to myself or others, I was not resisting any arrest, I was not running anywhere, so I don't feel there was a need for the torture I was put through. I went through that day of getting tased, or the pain and fever I got after that. Also, For over two hours, my husband kept on asking for water inside our home. There was multiple packages of water and when he kept on asking for some, and he kept on getting denied. Officers kept on insisting and insinuating that my husband had laid hands on me and had done bruises when I made it clear to them how I ended up with my bruises on my arm and that I had doctors excuse about me being sick and explaining the bruising on my bicep. (My weight lose Mexican medication was increased and my body had a bad reaction which is also a normal reaction to the shots. Nausea, vomit, weakness) that caused me to pass out twice at home, and of course I'm a 240 lbs person so my husband had to help me get up on his own, I mean look at him and then look at my body size. Lastly he was denied the opportunity to put shoes and a shirt! He asked multiple times and was ignored. I was asked by another officer if I felt that excessive use of force was being used but I did not know what she meant I was more worried about my husband, if I got tassed for translating and following orders imagine what they would had done to him that he didn't understand what they where saying? Austin police department has caused more pain and damages than a crime what had actually occurred. The situation should've been handled in a whole different manner. I do not agree that we were dragged out of my home specially my husband that was asleep already.

Complaint: The complainant alleges: At approximately 5:30am this morning on Toll road 130 south bound a cop car was tailgating me with his headlights shinning vey brightly into my diver side mirror. Traffic was a bit heavy with a car in front of me and a large truck near by. I sped up to change lanes from the left to the middle to let him pass by and when he blinded me and my wife with his side white spot light and proceeded to speed past us. This was very uncalled for and could of caused us to crash with how bright that light is when driving on a fast toll road.

Austin Police Officers Involved: Chief Davis AP10426	Unknown: <input type="checkbox"/>
Complaint: The complainant alleges: Chief Lisa Davis is lying to the citizens, media, and city council about her internal staffing reorganization actions at APD. She has publicly claimed that she has handpicked all sergeants replacing the training academy officer instructors. In fact, many of the sergeants contacted declined these jobs. Chief Davis has been unable to fill all the positions. Nearly all sergeants selected lack ANY INSTRUCTOR EXPERIENCE, with most even lacking Basic TCOLE Instructor certification. Only one or two have ever been instructors. Furthermore, Chief Davis downsized the Recruiting Unit from 16 officers to only 10 detectives, another radical staffing change which will have lasting negative repercussions. The city needs to look more closely at this Chief. Her destructive and radical actions threaten to reverse the city's efforts to reform the APD academy and recruiting. Chief Davis has also fostered an internal climate of retaliation and a hostile workplace. With her being the Chief, there is nowhere to file a complaint or seek assistance for risk of further retaliation. Please do right by the citizens and officers and be more involved in what this Chief is doing to the department, which ultimately affects the citizens.

Nature or complaint: Follow-up by Detective or Officer	
Austin Police Officers Involved Christopher Davis (AP5335)	Unknown: <input type="checkbox"/>
Complaint: The complainant alleges: I am submitting this letter to formally request an oversight review into the handling of multiple related criminal complaints I filed with the Austin Police Department (APD), specifically regarding theft of services 24-9022128, and theft of equipment 25-9006523, and financial crimes 25-5013068 associated with case numbers . I am deeply concerned that my cases were not properly investigated and that there may be a broader systemic issue within the Financial Crimes Unit. In early December 2024, I submitted a complaint regarding theft of services. I was contacted by Detective Nicole Pedroza, who instructed me to send documentation via certified mail to the individual first and advised I would subsequently receive access to the Axon portal. Despite following these instructions and sending multiple follow-up emails, phone calls (with left messages) between January and May 2025, I received no further communication or portal access. On June 10, 2025, after months without progress, I visited APD headquarters on 7th Street and spoke with an officer named Culter. He informed me that my case had been marked "closed" due to APD's inability to reach the claimant (me) despite my documented attempts to maintain contact. He advised me to go to the south substation and request to speak with Detective Pedroza directly. I proceeded to the Ralph Ablanedo substation and requested to speak with Pedroza. Mr. Ramos informed me she was not available and reiterated that my case had been closed, and to top it off Pedroza was no longer on that case it was Daniel Doyle. Frustrated by the lack of communication and transparency, I sent Doyle an email that afternoon. I left a week go by before I contacted APD's chain of command using 311 for phone numbers and left voicemails for Sergeant Vick and Lieutenant Christopher Davis. Lieutenant Davis returned my call within ten minutes and asked for a few days to look into the matter. Shortly after, Sergeant Vick informed me that Detective Daniel Doyle was currently unavailable due to t vacation and when he gets back on Monday he will be taking an exam. I did reiterate that I was beyond frustrated that these detectives do not return emails or phone calls. After additional follow-up, I was finally granted access to the Axon portal for the theft of services complaint. Meanwhile, Kevin Kelly reached out to start the financial crimes investigation.	

OFFICE OF POLICE OVERSIGHT

However, the theft of equipment case was later closed with the explanation that I had failed to send the certified mail, even though I had complied with Pedroza's instructions on the initial theft of services complaint, mail which she later acknowledged was dropped.

Since June 2025, I have continued consistent communication with Lieutenant Davis via email. Correspondence was sent on June 16, June 19, June 25, July 3, July 10, and July 25. In my final email, I requested an in-person meeting to discuss the case and broader concerns. Mr. Davis eventually responded and referred me back to an email from Detective Doyle stating that the case did not meet the elements of a criminal offense under Texas Penal Code §31.04. However, this conclusion appears to disregard clear evidence I provided and fails to reflect a thorough or impartial investigation.

I am requesting a formal review to determine whether:

APD detectives failed to fully investigate my claims;

Evidence supporting criminal charges was ignored or improperly evaluated;

My cases were prematurely or improperly closed without due process;

This reflects a broader issue in how financial crimes are being handled within APD.

I have acted in good faith and followed all instructions provided to me. I am concerned that the investigative lapses in this matter may be symptomatic of deeper issues within the department's financial crimes process. I respectfully request that your office conduct a full and impartial review of the handling of my complaints. I have statute of limitations and these detectives have failed to fully investigate my claim because there is a civil suit. My civil suit should have no bearing on these violations. Theft is theft.
